I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Schedule of Fees and Charges in order to modify the fee that applies to Option Strategy Executions.⁵

The text of the proposed rule change is available on the Exchange's Internet Web site (<http://www.nysearca.com>), at the Exchange's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange represents that the purpose of this proposed rule change is to modify the fee that applies to "Option Strategy Executions." These transactions include reversals and conversions,⁶ dividend spreads,⁷ box spreads,⁸ and merger spreads.⁹ Because the referenced Options Strategy Executions are generally executed by

⁵ Fees on Options Strategy Executions are applicable through a Pilot Program until March 1, 2007.

⁶ Reversals and conversions are transactions that employ calls, puts, and the underlying stock to lock in a nearly risk free profit. Reversals are established by combining a short stock position with a short put and a long call position that shares the same strike and expiration. Conversions employ long positions in the underlying stock that accompany long puts and short calls sharing the same strike and expiration.

⁷ Dividend spreads are trades involving deep-in-the-money options that exploit pricing differences arising around the time a stock goes ex-dividend.

⁸ Box Spreads is a strategy that synthesizes long and short stock positions to create a profit. Specifically, a long call and short put at one strike is combined with a short call and long put at a different strike to create synthetic long and synthetic short stock positions, respectively.

⁹ A merger spread is a transaction executed pursuant to a strategy involving the simultaneous purchase and sale of options of the same class and expiration date, but with different strike prices followed by the exercise of the resulting long option position.

professionals, whose profit margins are generally narrow, the Exchange caps the transaction fees associated with such executions at \$1,000 per strategy execution that is executed on the same trading day in the same option class. In addition, the Exchange has a monthly fee cap of \$25,000 per initiating firm for all strategy executions. At this time, the Exchange is proposing to lower the daily transaction fee cap in order to stay competitive with other national options exchanges. The Exchange proposes lowering the daily fee cap to \$750 per execution. The monthly cap of \$25,000 will remain unchanged. NYSE Arca believes that, by keeping fees on strategy executions low, the Exchange will be able to attract additional liquidity by accommodating these transactions.

The Exchange notes that OTP Holders and OTP Firms who wish to benefit from the fee cap would be required to submit to the Exchange forms with supporting documentation (e.g., clearing firm transaction data) to qualify for the cap.

2. Statutory Basis

The Exchange believes that proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and Section 6(b)(4)¹¹ in particular, in that it provides for the equitable allocation of dues, fees, and other charges among its members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change will not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act¹² and Rule 19b-4(f)(2)¹³ thereunder because it establishes or changes a due, fee, or other charge imposed by the Exchange. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the

Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
