

public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities. Quotations for and last sale information regarding the Shares are disseminated through the Consolidated Quotation System. Furthermore, an IOPV calculator updates an IOPV for the Fund every 15 seconds to reflect price changes of the Index components in the principal foreign markets, and converts such prices into U.S. dollars based on the current currency exchange rate. When the foreign market or markets are closed but NYSE is open for trading, the IOPV is updated every 15 seconds to reflect changes in currency exchange rates. Furthermore, NYSE Arca Equities Rule 7.34 describes the circumstances where the Exchange would halt trading when the IOPV or the value of the underlying Index is not calculated or widely available.

The Commission notes that, if the Shares should be delisted by NYSE, the original listing exchange, the Exchange would no longer have authority to trade the Shares pursuant to this order.

In support of this proposal, the Exchange has made the following representations:

1. The Exchange's surveillance procedures are adequate to monitor the trading of the Shares.

2. In connection with the trading of the Shares, the Exchange would inform ETP Holders in an Information Circular of the special characteristics and risks associated with trading the Shares.

3. The Information Circular would inform participants of the prospectus or product delivery requirements applicable to the Shares.

This approval order is conditioned on the Exchange's adherence to these representations.

The Commission finds good cause for approving this proposal before the thirtieth day after the publication of notice thereof in the **Federal Register**. As noted previously, the Commission previously found that the listing and trading of the Shares on NYSE is consistent with the Act. The Commission presently is not aware of any regulatory issue that should cause it to revisit that earlier finding or preclude the trading of Shares on the Exchange pursuant to UTP. Therefore, accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for the Shares.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁶ that the proposed rule change (SR-NYSEArca-2006-35) is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁷

Jill M. Peterson,

Assistant Secretary.

SUPPLEMENTARY INFORMATION: *Title:* Fixed Residential Moving Cost Schedule.

Background: Relocation assistance payments to owners and tenants who move personal property for a Federal or federally-assisted program or project is governed by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Uniform Act). 49 Code of Federal Regulations (CFR), Part 24, is the implementing regulation for the Uniform Act. 49 CFR 24.301 addresses payments for actual and reasonable moving and related expenses. The fixed residential moving cost schedule is an administrative alternative to reimbursement of actual moving costs. This option provides flexibility for the agency and affected property owners and tenants. The FHWA requests the State Departments of Transportation (State DOTs) to analyze moving cost data periodically to assure that the fixed residential moving cost schedules accurately reflect reasonable moving and related expenses. The regulation allows State DOTs flexibility in determining how to collect the cost data in order to reduce the burden of government regulation. Updated State fixed residential moving costs are submitted to the FHWA electronically.

Respondents: State Departments of Transportation (52, including the District of Columbia and Puerto Rico).

Frequency: Once every 3 years.

Estimated Average Burden per Response: 24 hours per respondent.

Estimated Total Annual Burden Hours: 24 hours for each of the 52 State Departments of Transportation. The total is 1,248 burden hours, once every 3 years, or 416 hours annually.

SUPPLEMENTARY INFORMATION: *Title:* Developing and Recording Costs for Railroad Adjustments.

OMB Control #: 2125-0521.

Background: Under 23 U.S.C. 130, the FHWA reimburses the State highway agencies when they have paid for the cost of projects that (1) Eliminate hazards at railroad/highway crossings, or (2) adjust railroad facilities to accommodate the construction of highway projects. The FHWA requires the railroad companies to document their costs incurred for adjusting their facilities. The railroad companies must have a system for recording labor, materials, supplies, and equipment costs incurred when undertaking the necessary railroad work. This record of costs forms the basis for payment by the State highway agency to the railroad company, and in turn FHWA reimburses the State for its payment to the railroad company.

Respondents: Approximately 135 railroad companies.

Frequency: Nearly 135 railroad companies are involved in an average of 10 railroad/highway projects per year, so the total frequency is 1,350 railroad adjustments.

Estimated Average Burden per Response: The average number of hours required to calculate the railroad adjustment costs and maintain the required records per adjustment is 12 hours.

Estimated Total Annual Burden Hours: The FHWA estimates that the total annual burden imposed on the public by this collection is 16,200 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.
