

deposit account, and electronic funds transfer (EFT). The provisions of 35 U.S.C. 41 and 15 U.S.C. 1113 are implemented in 37 CFR 1.16–1.28, 2.6–2.7, and 2.206–2.209.

The USPTO is developing a pilot program that will allow customers to access and manage their financial activity records online. Customers will be able to create a Financial Profile through the USPTO Web site by registering a username and password, providing contact information, and specifying the types of notifications and alerts they would like to receive. After establishing a Financial Profile, customers may then add the relevant account information to the profile in order to track their credit card, deposit account, and EFT transactions with the USPTO.

In the future, customers will also be able to use their Financial Profiles to perform transactions with the USPTO by using their previously stored account information. The Financial Profiles are being added to this information collection.

The public uses this collection to request corrections of errors in issued patents, to request reissue patents, to request reexamination proceedings, and to ensure that the necessary fees and documentation are submitted to the USPTO. The USPTO is adding two items to this information collection, an electronic version of the Issue Fee Transmittal (Form PTOL–85B) and a petition to request an extension of time in *ex parte* or *inter partes* reexamination proceedings. [Docket No. PTO–P–2007–0014]

#### Grant of Interim Extension of the Term of U.S. Patent No. 4,650,787; Sanvar®

**AGENCY:** United States Patent and Trademark Office, Commerce.

**ACTION:** Notice of interim patent term extension.

**SUMMARY:** The United States Patent and Trademark Office has issued a certificate under 35 U.S.C. 156(d)(5) for a third one-year interim extension of the term of U.S. Patent No. 4,650,787.

#### FOR FURTHER INFORMATION CONTACT:

Mary C. Till by telephone at (571) 272–7755; by mail marked to her attention and addressed to the Commissioner for Patents, Mail Stop Hatch-Waxman PTE., P.O. Box 1450, Alexandria, VA 22313–1450; by fax marked to her attention at (571) 273–7755, or by e-mail to [Mary.Till@uspto.gov](mailto:Mary.Till@uspto.gov).

**SUPPLEMENTARY INFORMATION:** Section 156 of Title 35, United States Code, generally provides that the term of a patent may be extended for a period of up to five years if the patent claims a product, or a method of making or using a product, that has been subject to certain defined regulatory review, and that the patent may be extended for interim periods of up to a year if the regulatory review is anticipated to extend beyond the expiration date of the patent.

On March 23, 2007, Debiotion Inc., the exclusive agent of Debiopharm S.A. and Debio Recherche Pharmaceutique S.A., who is the exclusive licensee of the Administrators of the Tulane Educational Fund of New Orleans, Louisiana, the patent owner, timely filed an application under 35 U.S.C. 156(d)(5) for a third interim extension of the term of U.S. Patent No. 4,650,787. The patent claims the human drug product Sanvar® (vapreotide acetate). The application indicates that a New Drug Application for the human drug product Sanvar® (vapreotide acetate) has been filed and is currently undergoing regulatory review before the Food and Drug Administration for permission to market or use the product commercially.

Review of the application indicates that except for permission to market or use the product commercially, the subject patent would be eligible for an extension of the patent term under 35 U.S.C. 156, and that the patent should be extended for an additional one year as required by 35 U.S.C. 156(d)(5)(B).

Because it is apparent that the regulatory review period will continue beyond the extended expiration date of the patent (April 25, 2007), a third interim extension of the patent term under 35 U.S.C. 156(d)(5) is appropriate.

A third interim extension under 35 U.S.C. 156(d)(5) of the term of U.S. Patent No. 4,650,787 is granted for a period of one year from the extended expiration date of the patent, i.e., until April 25, 2008.

Dated: April 3, 2007.
