

who received a separate rate in a prior segment of the proceeding will continue to be the rate assigned in that segment of the proceeding; (3) for all other PRC exporters of subject merchandise which have not been found to be entitled to a separate rate (including Shanghai Sunbeauty and Jiangsu JOM), the cash-deposit rate will be the PRC-wide rate of 223.01 percent; (4) for all non-PRC exporters of subject merchandise, the cash-deposit rate will be the rate applicable to the PRC exporter that supplied that exporter.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

These reviews and notice are in accordance with sections 751(a)(1), 751(a)(2) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5).

Dated: April 9, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.

International Trade Administration

[A-357-812]

Honey from Argentina: Final Results of New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On November 24, 2006, the Department of Commerce (the Department) published the preliminary results of review in this proceeding. See

Honey from Argentina: Preliminary Results of New Shipper Review, 71 FR 67850 (November 24, 2006) (*Preliminary Results*). This new shipper review covers one exporter, Patagonik S.A. (Patagonik) and its affiliated supplier, Colmenares Santa Rosa (CSR), of subject merchandise to the United States. The period of review (POR) is December 1, 2004, to December 31, 2005. The petitioners are the Sioux Honey Association and the American Honey Producers Association. Based on our analysis of comments received, the margin calculation for these final results does not differ from the preliminary results.

EFFECTIVE DATE: April 17, 2007.

FOR FURTHER INFORMATION CONTACT:

David Cordell or Robert James, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0408 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 24, 2006, the Department published its *Preliminary Results* of this antidumping duty new shipper review of honey from Argentina. On December 15, 2006, the **Federal Register** published a correction notice due to typographical errors in the original preliminary results notice. See *Corrections Honey From Argentina: Preliminary Results of New Shipper Review (Corrections Notice)*, 71 FR 75614 (December 15, 2006). Subsequent to publication of the *Preliminary Results* and the *Corrections Notice*, the Department issued an additional cost questionnaire on December 20, 2006, to which Patagonik responded on January 3, 2007. In response to the Department's invitation to comment on the preliminary results, petitioners submitted their case brief on January 8, 2007, and Patagonik submitted its rebuttal brief on January 16, 2007.¹ On January 31, 2007, the Department extended the final results until April 16, 2007. See *Notice of Extension of Time Limit for Final Results of Antidumping Duty New Shipper Review: Honey from Argentina*, 72 FR 4486 (January 31, 2007).

Scope of the Order

The merchandise covered by the order is honey from Argentina. The products covered are natural honey, artificial

honey containing more than 50 percent natural honey by weight, preparations of natural honey containing more than 50 percent natural honey by weight, and flavored honey. The subject merchandise includes all grades and colors of honey whether in liquid, creamed, comb, cut comb, or chunk form, and whether packaged for retail or in bulk form. The merchandise is currently classifiable under subheadings 0409.00.00, 1702.90.90, and 2106.90.99 of the *Harmonized Tariff Schedule of the United States* (HTSUS). Although the HTSUS subheadings are provided for convenience and Customs purposes, the Department's written description of the merchandise under this order is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this new shipper review are addressed in the "Issues and Decision Memorandum" (Decision Memorandum) from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to David M. Spooner, Assistant Secretary for Import Administration. A list of issues addressed in the Decision Memorandum is appended to this notice. The Decision Memorandum is on file in the CRU and can be accessed directly on the web at <http://www.ita.doc.gov/>.

Changes Since the Preliminary Results

Based on our analysis of comments received, we have made no changes to our preliminary results.

Final Results of Review

We determine that the following dumping margins exist for the period December 1, 2004, through December 31, 2005.

Exporter	Weighted Average Margin (percentage)
Patagonik S.A. /Colmenares Santa Rosa S.R.L.	0.00

Assessment

The Department shall determine, and the CBP shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates for the merchandise based on the ratio of the total amount of antidumping duties calculated for the examined sales made during the POR to the total customs value of the sales used to calculate those duties. The Department will issue appropriate *ad valorem* assessment instructions directly to CBP 15 days after publication

¹ In response to requests from petitioners and Patagonik, the Department extended the deadline for case briefs to January 8, 2006, and for rebuttal briefs to January 16, 2006.

of these final results of review. We will direct CBP to assess the resulting assessment rate against the entered customs values for the subject merchandise on each of the importer's entries during the POR.

The Department clarified its "automatic assessment" regulation on May 6, 2003 (68 FR 23954). This clarification will apply to entries of subject merchandise during the period of review produced by companies included in these final results of review for which the reviewed companies did not know their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. For a full discussion of this clarification, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this new shipper review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Tariff Act of 1930, as amended (the Tariff Act):

(1) the cash deposit for Patagonik/CSR will be the rate established in the final results of this new shipper review;

(2) for any previously reviewed or investigated company not listed above, the cash deposit rate will continue to be the company-specific rate published in the most recent period;

(3) the cash deposit rate for entries of subject merchandise exported/produced by Patagonik/CSR but not produced by Patagonik/CSR will continue to be the "all others" rate of 30.24 percent or the rate applicable to the producer/exporter if so established; and

(4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be the "all others" rate from the LTFV investigation (30.24 percent). See *Notice of Antidumping Duty Order; Honey From Argentina*, 66 FR 63672 (December 10, 2001). These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

Notification to Interested Parties

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a

certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation, which is subject to sanction. We are issuing and publishing this determination and notice in accordance with sections section 751(a)(1) and 777(i)(1) of the Tariff Act.

Dated: April 9, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Notice of Meeting Regarding IPv6 Test Materials for the United States Government

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice of meeting.

SUMMARY: The National Institute of Standards and Technology (NIST) Information Technology Laboratory (ITL) invites interested parties to attend a meeting pertaining to Internet Protocol

version 6 (IPv6) Test Materials for the United States Government.

NIST will host a meeting open to the public on May 4th, 2007, in Lecture Room B of building 101 at 9 am to discuss establishing a framework for a sound and viable testing methodology for Internet Protocol version 6. The discussion will include: USG requirements for testing, attributes of potential administrative frameworks for test programs, potential sources of test suites to serve as a technical basis for a testing program, and potential test providers who could carry out and/or provide services in support of such programs.

DATES: The public meeting will be held on May 4th, 2007 at 9 a.m. Parties wishing to submit information should send their materials to NIST no later than April 30, 2007.

ADDRESSES: The public meeting will be held at: NIST Administration Building, 100 Bureau Drive, Lecture Room B, Gaithersburg, MD 20899. Submissions of information should be sent to: *sp-500-267-comments@antd.nist.gov*.

FOR FURTHER INFORMATION CONTACT: Stephen Nightingale, *night@nist.gov*.

SUPPLEMENTARY INFORMATION: Following publication of NIST Special Publication 500-267 *A Profile for IPv6 in the Federal Government—Version 1.0*, NIST has begun to consider the feasibility and form of a possible testing program to demonstrate claims of compliance. Such a testing program might have two components:

(1) Qualified test laboratories testing to public domain test suites and relevant test methods, and

(2) An Approved Products List. The approved products list could identify Hosts, Routers and Network Protection Devices (including Firewalls) that have passed interoperability testing and conformance testing.

The objective of the meeting is to determine the following information:

(1) Whether there are test Suites for interoperability and conformance that can be placed in the public domain, free from intellectual property rights or other encumbrance and validated against the specifications, for use as the standard reference test suite for the U.S. Government IPv6 Profile.

(2) What test methods, being devices or procedural systems, can be validated in conjunction with the standard reference test suites.

(3) Whether there are testing facilities compliant with, or intending to be compliant with, ISO 17025 *General Requirements for the Competence of Calibration and Testing Laboratories*, which may conduct interoperability and
