

cooperation with the Pine Ridge Oglala Sioux, is preparing an Environmental Impact Statement (EIS) for a General Management Plan (GMP) for the South Unit of Badlands National Park. The GMP will prescribe the resource conditions and visitor experiences that are to be achieved and maintained in the South Unit over the next 15 to 20 years.

To facilitate sound planning and environmental assessment, the NPS intends to gather information necessary for the preparation of the EIS and obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS. Comments and participation in this scoping process are invited. Participation in the planning process will be encouraged and facilitated by various means, including newsletters and open houses or meetings. The NPS will conduct public scoping meetings to explain the planning process and to solicit opinion about issues to address in the GMP/EIS.

Notification of all such meetings will be announced in the local press and in the NPS newsletters.

ADDRESSES: Additionally, if you wish to comment on any issues associated with GMP, you may submit your comments by any one of several methods. You may mail or hand-deliver comments to Superintendent, Badlands National Park, 25216 Ben Reifel Road, Interior, South Dakota 57740. You may provide comments electronically by entering them into the NPS's Planning, Environment and Public Comment Web site <http://parkplanning.nps.gov>. Information will be available for public review and comment from the Office of the Superintendent at the above address.

Requests to be added to the project mailing list should be sent to Ms. Pamela Livermont, Badlands National Park, 25216 Ben Reifel Road, Interior, South Dakota 57750; telephone 605-433-5281; or e-mail Pamela_Livermont@nps.gov.

Before including your address, telephone number, e-mail address, or other personal identifying information in your comments, you should be aware that your entire comment (including your personal identifying information) may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will make all submissions from organizations or businesses, from individuals identifying themselves as representatives or

officials, or organizations or businesses available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: Superintendent Paige Baker, Badlands National Park, 25216 Ben Reifel Road, Interior, South Dakota 57750, telephone 605-433-5280.

SUPPLEMENTARY INFORMATION: Composed of two largely undeveloped and remote tracts of land totaling 140,000 acres, the South Unit lies entirely within the Pine Ridge Oglala Sioux Reservation. The South Unit is administered to provide for the care, maintenance, and preservation of prehistoric, historic, scientific, and scenic interest, and to develop facilities that will provide for public use and enjoyment.

As stated above, the GMP will prescribe the resource conditions and visitor experiences that are to be achieved and maintained in the South Unit over the next 15 to 20 years. The clarification of what must be achieved according to law and policy will be based on review of the unit's purpose, significance, special mandates, and the body of laws and policies directing park management. Based on determinations of desired conditions, the GMP will outline the kinds of resource management activities, visitor activities, and appropriate future development. A range of reasonable management alternatives will be developed through this planning process and will include, at minimum, a no-action alternative and a preferred alternative. To facilitate sound analysis of environmental impacts, the NPS is gathering information necessary for the preparation of an associated EIS.

A GMP for the North Unit was completed in 2006; the South Unit GMP will be the equivalent of Volume 2. Together, the two volumes will constitute the GMP for Badlands National Park.

Dated: January 29, 2007.

Ernest Quintana,

Regional Director, Midwest Region.

Grand Teton Transportation Plan, Final Environmental Impact Statement, Grand Teton National Park, WY

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of availability of a Record of Decision on the Final

Environmental Impact Statement for the Grand Teton Transportation Plan, Grand Teton National Park.

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969, 83 Stat. 852, 853, codified as amended at 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of the Record of Decision for the Grand Teton Transportation Plan, Grand Teton National Park, WY. On March 12, 2007, the Director, Intermountain Region approved the Record of Decision for the project. As soon as practicable, the National Park Service will begin to implement the Preferred Alternative contained in the FEIS issued on September 15, 2006. The following course of action will occur under the preferred alternative: construction of approximately 23 miles of separated multi-use pathways between the south park boundary and String Lake via North Jenny Lake Junction; approximately 16 miles of pathways within the road corridor between North Jenny Lake Junction and Colter Bay; an approximately 3-mile pathway within the road corridor along the Moose-Wilson Road from the Granite Canyon Entrance to the Laurance S. Rockefeller (LSR) Preserve; and realignment of the Moose-Wilson Road in two areas, with the existing alignments being restored to natural conditions. This course of action was analyzed in the Final Environmental Impact Statement and combines two alternatives presented in the Draft Environmental Impact Statement. Four other alternatives were analyzed in the Draft and Final Environmental Impact Statements. The full range of foreseeable environmental consequences was assessed, and appropriate mitigating measures were identified.

The Record of Decision includes a statement of the decision made, synopses of other alternatives considered, the basis for the decision, a description of the environmentally preferable alternative, a finding on impairment of park resources and values, a listing of measures to minimize environmental harm, and an overview of public involvement in the decision-making process.

FOR FURTHER INFORMATION CONTACT: Mary Gibson Scott, Superintendent, Grand Teton National Park, P.O. Drawer 170, Moose, Wyoming 83012-0170, (307) 739-3410.

SUPPLEMENTARY INFORMATION: Copies of the Record of Decision may be obtained from the contact listed above or online at <http://parkplanning.nps.gov/grte>.

Dated: March 12, 2007.

National Park Service

Notice of Availability for the Record of Decision on the Final Environmental Impact Statement for the Niobrara National Scenic River General Management Plan, Nebraska

AGENCY: National Park Service, Department of the Interior.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of the Record of Decision (ROD) Niobrara National Scenic River (Scenic River) General Management Plan/final Environmental Impact Statement (EIS), Scenic River. On March 26, the Midwest Regional Director approved the ROD for the project. As soon as practicable, the NPS will begin to implement the Preferred Alternative contained in the final EIS issued on February 23.

Management Alternative B develops a vision for cooperative management of the Scenic River, with the NPS providing stewardship directly and through Federal, State, and local partners on a landscape that would remain largely in private ownership. The alternative's boundary protects, as equitably as possible, the river's outstandingly remarkable scenic, recreational, geologic, fish and wildlife, and paleontological values. This alternative encompasses 23,074 acres and is within the acreage limitations of the Wild and Scenic Rivers Act.

This course of action and three alternatives were analyzed in the draft and the final EIS. The full range of foreseeable environmental consequences was assessed and appropriate mitigating measures were identified.

The ROD includes a statement of the decision made, synopses of other alternatives considered, the basis for the decision, a description of the environmentally preferable alternative, a finding on impairment of park resources and values, a listing of measures to minimize environmental harm, and an overview of public involvement in the decisionmaking process.

FOR FURTHER INFORMATION CONTACT: Superintendent, Niobrara National

Scenic River, P.O. Box 591, O'Neill, Nebraska 68763, or by calling 402-336-3970. Copies of the final EIS and ROD are available upon request from the above address or may be viewed online at <http://parkplanning.nps.gov/>.

Dated: March 29, 2007.

Construction of New Utah Museum of Natural History, Final Environmental Impact Statement, Salt Lake County, UT

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of Availability of a Record of Decision on the Final Environmental Impact Statement for the Construction and Operation of a Proposed New Utah Museum of Natural History at the University of Utah.

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969, 83 Stat. 852, 853, codified as amended at 42 U.S.C. 4332(2)(C), the National Park Service and the University of Utah announce the availability of the Record of Decision for the Construction and Operation of a Proposed New Utah Museum of Natural History at the University of Utah, Salt Lake County, Utah. On March 26, 2007, the Director, Intermountain Region approved the Record of Decision for the project. As soon as practicable, the University of Utah will begin to implement the Preferred Alternative contained in the FEIS issued on February 23, 2007. The following course of action will occur under the preferred alternative: the new museum building will be built uphill from the pipeline corridor/Bonneville Shoreline Trail that pass through the new site. Parking will be provided in a joint Red Butte Garden and Arboretum/Utah Museum of Natural History facility, or if a joint facility is not viable, downhill from the pipeline corridor. Flexibility is afforded for site design and placement of facilities. A portion of the development area extends into Red Butte Garden and Arboretum property. This course of action and five alternatives were analyzed in the Draft and Final Environmental Impact Statements. The full range of foreseeable environmental consequences was assessed, and

appropriate mitigating measures were identified.

The Record of Decision includes a statement of the decision made, synopses of other alternatives considered, the basis for the decision, a description of the environmentally preferable alternative, a listing of measures to minimize environmental harm, and an overview of public involvement in the decision-making process.

Camaco, LLC; Mariana Division, Marianna, AR; Notice of Negative Determination Regarding Application for Reconsideration

By application dated April 4, 2007, a company official requested administrative reconsideration of the Department's negative determination regarding eligibility for workers and former workers of the subject firm to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA). The denial notice was signed on March 16, 2007 and published in the **Federal Register** on March 30, 2007 (72 FR 15168).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a mis-interpretation of facts or
