appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date indicated below. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "efiling" link at http://www.ferc.gov. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Comment Date: May 11, 2007.

Kimberly D. Bose,

Secretary.

[Docket No. CP06-449-000]

Kinder Morgan Louisiana Pipeline LLC; Notice of Availability of the Final Environmental Impact Statement for the Proposed Kinder Morgan Louisiana Pipeline Project

April 20, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final Environmental Impact Statement (EIS) on the natural gas pipeline facilities proposed by Kinder Morgan Louisiana Pipeline LLC (KMLP) in the abovereferenced docket.

The final EIS was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed Project with the appropriate mitigating measures as recommended, would have limited adverse environmental impact. The final EIS also evaluates alternatives to the proposal, including system alternatives, major route alternatives, and route variations.

The final EIS addresses the potential environmental effects of the construction and operation of the following facilities:

- Leg 1—132.2 miles of 42-inchdiameter pipeline beginning within the Sabine Pass Liquefied Natural Gas (LNG) Terminal in Cameron Parish and extending northward and easterly through Calcasieu, Jefferson Davis, and Acadia Parishes until it connects with an existing Columbia Gulf Transmission interstate pipeline in Evangeline Parish, Louisiana.
- Leg 2—1.2 miles of 36-inchdiameter pipeline beginning within the Sabine Pass LNG Terminal and extending to a point of interconnection with the existing Natural Gas Pipeline Company of America pipeline just south of State Highway 82 in Cameron Parish, Louisiana.
- The Florida Gas Transmission (FGT) Lateral—2.3 miles of 24-inch-diameter pipeline extending eastwardly from Leg 1 at approximately milepost 110.60 until it connects with the existing FGT Company's Compressor Station No. 7 near the town of Williams in Acadia Parish, Louisiana.
- Associated mainline block valves, metering, tie-in, and pigging facilities.

The purpose of the proposed facilities is to deliver at least 3,395,000 decatherms (Dth) per day of regasified natural gas from the Sabine Pass LNG Terminal into the national pipeline and underground storage grid.

The final EIS has been placed in the public files of the FERC and is available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502–8371.

Copies the final EIS have been mailed to Federal, State, and local agencies, public interest groups, individuals who have requested the final EIS, newspapers, and parties to this proceeding.

Additional information about the Project is available from the Commission's Office of External Affairs, at 1–866–208–FERC (3372) or on the FERC Internet Web site (http:// www.ferc.gov). Using the "Documents and Filings" tab, click on the "eLibrary link," and select "General Search." Enter the project docket number excluding the last three digits (i.e., CP06–449) in the "Docket Number" field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. To register for this service, go to http://www.ferc.gov/docs-filing/esubscription.asp.

Kimberly D. Bose,

Secretary.

Federal Energy Regulatory Commission

Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

April 20, 2007.

Take notice that the following application has been filed with the Commission and is available for public inspection:

- a. Application Type: Amendment of License to Modify Project Design.
 - b. Project No.: 11588-027.
 - c. Date Filed: January 26, 2007.
- d. *Applicant:* Alaska Power and Telephone Company.
- e. *Name of Project:* Kasidaya Creek Hydroelectric Project.
- f. Location: On the Kasidaya Creek at Taiya Inlet, 3 miles south of the City of Scagway, and 12 miles northeast of the City of Haines, Alaska.
- g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a–825r.
- h. Applicant Contact: Mr. Glen D. Martin, Alaska Power and Telephone Company, 193 Otto Street, Port Townsend, WA 98368. Phone (360) 385–1733.
- i. FERC Contact: Anumzziatta Purchiaroni at (202) 502–6191, and email:

Anumzziatta.Purchiaroni@ferc.gov.

j. Deadline for filing comments, motions to intervene, and protest: May 21, 2007.

All documents (original and eight copies) should be filed with: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

k. Description of Request: The licensee proposes to: (1) Move the diversion structure about 54 feet downstream from the authorized location, and change the height of the structure from 10 to 15 feet, which would change the surface area of the impoundment from 0.25 to about 0.30 acre, and its volume from 1.0 to 1.1 acre-feet; (2) extend the access road about 800 feet on the north side of Kasidaya Creek, cross over the creek with a 50-foot-long modular bridge, and then construct an additional 400 feet of road on the south side of the creek, to access the diversion structure; (3) instead of the authorized 675 foot-long tunnel between the diversion structure and the penstock, install a penstock that would be buried adjacent to the proposed extended access road; (4) install a pneumatic-operated gate instead of a spillway with a fixed concrete crest; (5) eliminate the quay at the marine access facilities; and (6) decrease the length of the jetty from 250 to 200 feet. The corridor of the proposed extension of the access road and penstock would be in the same vicinity of the upper segment of penstock that was originally proposed under the license. These modifications would require changing the amount of federal lands occupied by the project from 11.05 acres to 12.14 acres.

l. Locations of the Application: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502–8371. This filing may also be viewed on the Commission's Web site at http://www.ferc.gov using the "eĹibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at http://www.ferc.gov/docs-filing/ esubscription.asp to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions to Intervene: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, 385.211, 385.214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers.

p. Agency Comments: Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at http://www.ferc.gov under the "e-Filing" link.

Kimberly D. Bose,

Secretary.

[Project No. 12455-003]

Beltzville Hydroelectric Project; Notice of Application Accepted for Filing and Soliciting Motions To Intervene and Protests

April 20, 2007.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

- a. *Type of Application:* Original License.
 - b. Project No.: 12455-003.
 - c. Date filed: December 29, 2006.
- d. *Applicant:* Borough of Leighton, Pennsylvania.
- e. *Name of Project:* Beltzville Hydroelectric Project.
- f. Location: The project would be connected to the U.S. Army Corps of Engineers' Beltzville Dam, located on Pohopoco Creek, in the Borough of Leighton, Carbon County, Pennsylvania.

g. Filed Pursuant to: The Federal Power Act, 16 U.S.C. 791(a)–825(r).

h. Applicant Contact: Mr. John Hanosek, P.E., Borough Manager, P.O. Box 29, Municipal Building, Second and South Street, Leighton, PA 18235, (610) 377–4002.

i. FERC Contact: Jack Hannula, (202) 502–8917 or john.hannula@ferc.gov.

j. Deadline for filing motions to intervene and protests: 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedures require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Motions to intervene and protests may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (http://www.ferc.gov) under the "e-Filing" link.

k. This application has been accepted for filing, but is not ready for environmental analysis at this time.

l. Description of Project: The project would be located at the existing Corps of Engineers Beltzville Dam which is a 175-foot-high, 4,600-foot-long earth-fill dam with a 23-foot-high, 2,000-foot-long un-gated concrete spillway. The reservoir has 949 surface acres at a normal water surface elevation of 628.0 feet, mean sea level (msl).

The proposed Beltzville Hydroelectric Project would consist of: (1) A new, approximately 150-foot-long penstock connected to the downstream side of Beltsville Dam via an existing outlet conduit that would be modified to include a 78-inch diameter steel pipe
