CONSUMER PRODUCT SAFETY COMMISSION

Notification of Request for Extension of Approval of Information Collection Requirements—Recordkeeping Requirements Under the Safety Regulations for Full-Size Cribs

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In the February 12, 2007 **Federal Register** (72 FR 6533), the Consumer Product Safety Commission (CPSC or Commission) published a notice in accordance with provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) to announce the agency's intention to seek an extension of approval of information collection requirements in the safety regulations for full-size cribs. 16 CFR 1500.18(a)(13) and part 1508. Joint comments in

support of the information collection were submitted by the Consumer Federation of America, Consumers Union, Kids in Danger and Keeping Babies Safe, Inc. Commentors state that the ability of the Commission to better communicate news of recalls to retailers and individuals is critical to removing potentially dangerous cribs and the continued collection of information may assist in that effort. The Commission now announces that it is submitting to the Office of Management and Budget (OMB) a request for extension of approval of that collection of information.

These regulations were issued to reduce hazards of strangulation, suffocation, pinching, bruising, laceration, and other injuries associated with full-size cribs. The regulations prescribe performance, design, and labeling requirements for full-size cribs. They also require manufacturers and importers of those products to maintain sales records for a period of three years after the manufacture or importation of full-size cribs. If any full-size cribs subject to provisions of 16 CFR 1500.18(a)(13) and part 1508 fail to comply in a manner severe enough to warrant a recall, the required records can be used by the manufacturer or importer and by the Commission to identify those persons and firms who should be notified of the recall. OMB previously approved the collection of information under control number 3041–0013. OMB's most recent extension of approval will expire on September 30, 2007.
