SUPPLEMENTARY INFORMATION:

Title: Specified Risk Materials.

OMB Number: 0583-0129.

Expiration Date of Approval: 10/31/2007.

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*). FSIS protects the public by verifying that meat products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting revision of an approved information collection addressing paperwork requirements specified in the regulations relating to specified risk materials (SRMs) in cattle.

FSIS requires that official establishments that slaughter cattle or process carcasses or parts of cattle develop written procedures for the removal, segregation, and disposition of specified risk materials. The Agency also requires that these establishments maintain daily records to document the implementation and monitoring of their procedures for the removal, segregation, and disposition of SRMs, and any corrective actions that they take, to ensure that the procedures are effective (9 CFR 310.22).

The Agency is revising the SRM information collection based on the most recent plant data, which support a finding of more total burden hours than there are in the approved information collection.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of .12 hours per response.

Respondents: Official establishments that slaughter cattle or process parts of cattle.

Estimated No. of Respondents: 3,512.

Estimated No. of Annual Responses per Respondent: 300.

Estimated Total Annual Burden on Respondents: 123,216 hours.

Copies of this information collection assessment can be obtained from John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 300 12th Street, SW., Room 112, Washington, DC 20250-3700, (202) 720-5627, (202) 720-0345.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS' functions, including whether the information will have practical

utility; (b) the accuracy of FSIS' estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and, (d) ways to minimize the burden of the collection of information on establishments, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may also be sent to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities, are aware of this notice, FSIS will announce it on-line through the FSIS web page located at http://www.fsis.usda.gov/regulations/2007/Notices_Index/index.asp.

FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to our constituents and stakeholders. The update is communicated via Listserv, a free e-mail subscription service consisting of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals who have requested to be included. The update also is available on the FSIS web page. Through Listserv and the web page FSIS is able to provide information to a much broader, more diverse audience.

In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the option to password protect their account.

SUPPLEMENTARY INFORMATION:

Title: Advanced Meat Recovery.

OMB Number: 0583-0130.

Expiration Date of Approval: 10/31/2007.

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*). The statute provides that FSIS is to protect the public by verifying that meat products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting revision of an approved information collection addressing paperwork and recordkeeping requirements regarding the regulatory requirements associated with the production of meat from Advanced Meat Recovery (AMR) systems. The Agency is revising the AMR information collection based on its most recent plant data, which support a finding of fewer total burden hours than there are in the approved information collection.

FSIS requires that official establishments that produce meat from AMR systems (1) ensure that the bones used for the systems do not contain brain, trigeminal ganglia, or spinal cord and are from animals younger than 30 months of age; (2) test for calcium, iron, spinal cord, and dorsal root ganglia (DRG); (3) document their testing protocols; (4) handle product in a manner that does not cause product to be misbranded or adulterated; and (5) maintain records of their documentation and of their test results (9 CFR 318.24).

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of a half hour per response.

Respondents: Official establishments that produce meat from AMR systems.

Estimated No. of Respondents: 56.

Estimated No. of Annual Responses per Respondent: 900.

Estimated Total Annual Burden on Respondents: 25,209 hours.

Copies of this information collection assessment can be obtained from John O'Connell, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 300 12th Street, SW., Room 112, Washington, DC 20250-3700, (202) 720-5627, (202) 720-0345.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS' functions, including whether the information will have practical utility; (b) the accuracy of FSIS' estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and, (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may also be sent to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Cibola National Forest; New Mexico; Tajique Watershed Restoration Project

AGENCY: Forest Service, USDA.

ACTION: Withdrawal of an environmental impact statement.

SUMMARY: On August 20, 2004, the **Federal Register** published a Notice of Intent (NOI) to prepare an Environmental Impact Statement (EIS) for the Tajique Watershed Restoration Project on the Cibola National Forest, Mountainair Ranger District (69 FR 51626-51628). The Environmental Protection Agency (EPA) published the notice of availability of the Draft EIS in the **Federal Register** on February 4, 2006 (70 FR 6004). The EPA published a notice of availability for the Final EIS in the **Federal Register** on October 21, 2005 (69 FR 61287) and an amended notice of availability of the Final EIS on November 4, 2005 (70 FR 67166). The project had been developed in accordance with Title I of the Healthy Forests Restoration Act of 2003 (Pub. L. 108-148). After the distribution of the Final EIS, the Forest Service received an objection during the pre-decisional administrative review period on the project. There was no resolution to the objection and the Forest Service has
