SUMMARY: The Technical Guidelines Development Committee (the "Development Committee") was established to act in the public interest to assist the Executive Director of the U.S. Election Assistance Commission (EAC) in the development of voluntary voting system guidelines. The Committee held their first plenary meeting on July 9, 2004. At this meeting, the Development Committee agreed to a resolution forming three working groups: (1) Human Factors & Privacy; (2) Security & Transparency; and (3) Core Requirements & Testing to gather and analyze information on relevant issues. These working subcommittees propose resolutions to the TGDC on best practices, specifications and standards. Specifically, NIST staff and Committee members will meet via the above scheduled teleconferences to review and discuss progress on tasks defined in resolutions passed at Development Committee plenary meetings. The resolutions define technical work tasks for NIST that will assist the Committee in developing recommendations for voluntary voting system guidelines. The Committee met in its ninth plenary session on May 21–22, 2007. Documents and transcriptions of Committee proceedings are available at: <http://vote.nist.gov/PublicHearingsandMeetings.html>.

PURPOSE: At the direction of the Committee and with technical support from NIST staff, the three working

subcommittees gather and analyze information relevant to requirement recommendations for the next iteration of the voluntary voting system guidelines. The Human Factors and Privacy Subcommittee considers usability, accessibility, and privacy functions of voting systems and the environment of the polling place. The Security and Transparency Subcommittee considers the security of computers, computer networks and computer data storage used in voting systems. The Core Requirements and Testing Subcommittee considers precise and testable specifications for voting systems. The subcommittees' recommendations are then presented to the Development Committee as a whole at public plenary sessions.

SUPPLEMENTARY INFORMATION: The Technical Guidelines Development Committee (the "Development Committee") was established pursuant to 42 U.S.C. 15361, to act in the public interest to assist the Executive Director of the Election Assistance Commission in the development of the voluntary voting system guidelines. The information gathered and analyzed by the working subcommittees during their teleconference meetings will be reviewed at future Development Committee plenary meetings.
