

because it is unnecessary. The revisions made by this rule are clarifying in nature and do not affect the rights and obligations of the public because they merely provide a cross reference to related regulations of another administrative agency. Because these revisions are not substantive changes to the EAR, it is unnecessary to provide notice and opportunity for public comment. In addition, the 30-day delay in effectiveness required by 5 U.S.C. 553(d) is not applicable because this rule is not a substantive rule. No other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this rule. Because notice of proposed rulemaking and opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) are not applicable. Therefore, this regulation is issued in final form.

DEPARTMENT OF STATE

22 CFR Part 121

[Public Notice 5867]

Amendment to the International Traffic in Arms Regulations: United States Munitions List

AGENCY: Department of State. ACTION: Final rule.

SUMMARY: The Department of State, in consultation with the Departments of Defense and Commerce, is amending the text of the United States Munitions List (USML), Category XV—Spacecraft Systems and Associated Equipment to clarify the coverage and to alter one of the five performance characteristics that define radiation-hardened microelectronic circuits that are subject to the licensing jurisdiction of the International Traffic in Arms Regulations (ITAR).

DATES: Effective Date: This rule is effective July 17, 2007.

ADDRESSES: Interested parties are invited to submit comments at any time by the following methods:

- Mail: Department of State, Directorate of Defense Trade Controls, Office of Defense Trade Controls Policy, ATTN: Regulatory Change, USML Part 121, Category XV, 12th Floor, SA-1, Washington DC 20522-0112.
- E-mail:

DTCPResponseTeam@state.gov with the subject line: USML Review—Category XV.

Persons with access to the Internet may also view this notice by going to the regulations.gov Web site at: http://www.regulations.gov/index.cfm.

Comments will be accepted at any time. FOR FURTHER INFORMATION CONTACT: Mr. Stephen Tomchik, Office of Defense

Trade Controls Policy, Department of State, Telephone (202) 663-2799 or Fax (202) 261-8199. ATTN: Regulatory Change, USML Part 121, Category XV.

SUPPLEMENTARY INFORMATION: The specific results of the Department of State-led interagency review are as follows:

1. Category XV. One substantive change is made to the characteristics defining radiation hardened microelectronic circuits in paragraph (d). The exponential measure describing the single event upset rate described in (d)(4) is changed from 1x10^-7 to 1x10^-10. This change reflects the minimal performance standard for space applications, and addresses the outcome of evolving refinements in the manufacturing process for these circuits.

2. Several additional textual clarifications are made to the five characteristics. The word "threshold" is inserted in (d)(2) and (d)(4) for purposes of technical clarity. In (d)(3) the insertion of the expression "1 MeV Equivalent" describes the energetic activity of neutrons. Finally, in (d)(4) an expression is added to clarify the representative environment for performance in space.

3. It is stressed that any microelectronic circuit that is specifically designed, developed, configured, adapted, or modified for a military or space application, to include its incorporation into any defense article described on the United States Munitions List (USML) remains subject to the licensing requirements of the International Traffic in Arms Regulations (ITAR).

4. Manufacturers and exporters are responsible for compliance with the controls of this subchapter. Consequently, the Department of State advises that companies must be able to demonstrate, either through testing, statistical analyses, design analyses, or other means, whether semiconductors meet or fail to meet the parameters established in USML Category XV(d). Records of such testing, analyses, or other means must be retained and made available as appropriate to demonstrate compliance.

Regulatory Analysis and Notices

Authority of Office of Inspector General and Postal Inspection Service

AGENCY: Postal Service.

ACTION: Final rule.

SUMMARY: The Postal Service is revising portions of title 39, Code of Federal Regulations, to clarify the division of investigatory responsibilities between the Office of the Inspector General of the Postal Service and the Postal Inspection Service.

DATES: Effective July 17, 2007.

FOR FURTHER INFORMATION CONTACT: Gladis C. Griffith, Deputy General Counsel, Office of the Inspector General, United States Postal Service, 703–248–4683.
