Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at: <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed dockets(s). BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP07-398-000, CP07-399-000, CP07-400-000; Docket No. CP07-401-000, CP07-402-000]

Gulf Crossing Pipeline Company, LLC; Gulf South Pipeline Company, LP; Supplemental Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Gulf Crossing Project, Request for Comments on Environmental Issues, and Notice of Public Site Visit

July 12, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will identify and address the environmental impacts that could result from the construction and operation of the Gulf Crossing Project proposed by Gulf Crossing Pipeline Company, LLC (Gulf Crossing) and Gulf South Pipeline Company, L.P (Gulf South). On June 19, 2007 Gulf Crossing and Gulf South filed a formal application which included significant route realignments along the pipeline route.

On April 2, 2007, the FERC issued a "Notice of Intent to Prepare an Environmental Impact Statement for the Proposed Gulf Crossing Project, Request for Comments on Environmental Issues and Notice of Public Scoping Meetings" (NOI). The NOI was published in the **Federal Register** and was also mailed to interested parties, including Federal, state and local officials, agency representatives, conservation organizations; Native American groups; local libraries and newspapers; and property owners affected by the proposed facilities.

In order to assist staff with the identification of environmental issues associated with the modified facilities and to comply with the requirements of the National Environmental Policy Act of 1969 (NEPA), a thirty day scoping period has been opened to receive comments on the proposed project, as modified. This NOI is necessary due to route changes along the pipeline as well as a significant change in the pipeline route in Mississippi. Please note that the scoping period for this project will close on August 13, 2007.

Additionally, as part of the scoping process, we will sponsor a public site visit of the proposed Mississippi Loop as described below, to receive comments on the proposed project. Please note that attendees at the site

visit must obtain their own transportation for the site visit.

Date and time	Location
July 26, 2007, 9 a.m.	Terry High School Parking Lot, 235 W. Beasley St., Terry, MS 39170.

This notice is being sent to affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers; all of which are encouraged to submit comments on the proposed project. Details on how to submit comments are provided in the Public Participation section of this notice.

If you are a landowner receiving this notice, you may be contacted by a Gulf Crossing or Gulf South representative about the acquisition of an easement to construct, operate, and maintain the proposed project facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the FERC, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility on My Land? What Do I Need To Know?" is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the FERC's proceedings.

Summary of the Proposed Project

Gulf Crossing proposes to construct, own and operate approximately 353.2 miles of new 42-inch-diameter natural gas transmission pipeline, four (4) new compressor stations, four (4) new metering and regulating (M&R) stations and associated facilities in Grayson, Fannin, Lamar, Delta, Hopkins, Franklin, Titus, Morris, and Cass Counties, Texas; Bryan County, Oklahoma; and Caddo, Bossier, Webster, Claiborne, Lincoln, Union, Ouchida, Morehouse, Richland, and Madison Parishes, Louisiana.

In addition, as part of the Gulf Crossing Project, Gulf South proposed to construct, own and operate a 17.8-mile-long 42-inch-diameter pipeline loop (Mississippi Loop) in Hinds, Copiah,
