

(SMM) within 210 days following the end of the plan year in which the change was adopted. Section 104(b)(1) separately provides that, in the case of any modification or change that is a "material reduction in covered services or benefits provided under a group health plan," the plan must provide a summary of such material reduction (SMR) not later than 60 days after the adoption of the modification or change, unless the plan routinely provides summaries of modifications or changes at regular intervals of not more than 90 days.

Section 109(c) of ERISA grants the Secretary of Labor the authority to prescribe the form and content of the SPD, as well as other documents required to be furnished or made available to plan participants and beneficiaries receiving benefits under a plan.

The Department has promulgated regulations governing the content and furnishing of SPDs, SMMs, and SMRs at 29 CFR 102-2 (Style and Format of Summary Plan Descriptions); 29 CFR 2520.102-3 (Contents of Summary Plan Descriptions); 29 CFR 2520.102-4 (Option for Different Summary Plan Descriptions); 29 CFR 2520.2520.104b-1 (Disclosure); 29 CFR 2520.104b-2 (Summary Plan Descriptions); 29 CFR 104b-3 (Summary of Material Modifications to the Plan and Changes in the Information Required to be Included in the Summary Plan Description); and 29 CFR 104b-4 (Alternative Methods of Compliance for Furnishing the Summary Plan Description and Summaries of Material Modifications of a Pension Plan to a Retired Participant, a Separated Participant, and a Beneficiary Receiving Benefits). These regulations set standards for the content of these disclosure documents, the methods of furnishing that will satisfy the statutory disclosure requirements, and alternative methods of compliance. In particular, regulations at 29 CFR 2520.104b-1(c) specifically describe the circumstances under which the administrator of an employee benefit plan may furnish required disclosure documents, including the SPD/SMM/SMR, through electronic media.

The Department's regulations contain information collections that constitute mandatory third-party disclosure requirements applicable to the majority of ERISA-covered pension and welfare benefit plans. The Department has determined that these information collections are necessary in order to ensure the participants and beneficiaries in employee benefit plans covered under ERISA receive adequate

information about the benefits due to them and their rights under the plans.

The information collections covered by the subject regulations are necessary to ensure that participants and beneficiaries are adequately and timely informed about their rights and benefits under their plans. The SPD, together with the relevant SMMs and SMRs, constitutes the single most important source of information about a plan for the plan participants, and, if properly updated through SMMs and SMRs, it provides participants and beneficiaries with complete knowledge about how to manage their benefits, including how to file benefit claims, what rights they may have under different situations, under what circumstances benefits can be lost, whom to contact about benefits, and many other essential matters. In order to insure that participants and beneficiaries receive this information, the regulations require SPDs to be written in language calculated to be understood by the average plan participant and to be provided through a method that ensures receipt. ERISA also requires that the information in the SPD be kept current. This is accomplished through the use of the SMM or SMR, which inform plan participants and beneficiaries about material plan changes, and the requirement for periodic updated SPDs.

Darrin A. King,

Acting Departmental Clearance Officer.

BILLING CODE 4510-29-P

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

January 24, 2007.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by calling Ira Mills on 202-693-4122 (this is not a toll-free number) or E-Mail: Mills.Ira@dol.gov, or by accessing <http://www.reginfo.gov/public/do/PRAMain>.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for U.S. Department of Labor/Employment and Training Administration (ETA), Office

of Management and Budget, Room 10235, Washington, DC 20503, 202-395-7316 (this is not a toll free number), within 45 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employment and Training Administration.

Type of Review: Extension of a currently approved collection.

Title: Workforce Investment Act: National Emergency Grant (NEG) Assistance—Application and Reporting Procedures.

OMB Number: 1205-0439.

Frequency: Quarterly.

Affected Public: State, Local, or Tribal Government.

Type of Response: Reporting.

Number of Respondents: 150.

Annual Responses: 1,565.

Average Response Time: 42 minutes.

Total Annual Burden Hours: 1,096.

Total Annualized Capital/Startup Costs: 0.

Total Annual Costs (operating/maintaining systems or purchasing services): 0.

Description: These application and reporting procedures for states and local entities enable them to access funds for National Emergency Grant (NEG) programs. NEGs are discretionary grants intended to complement the resources and service capacity at the state and local area levels by providing supplementary funding for workforce development and employment services and other adjustment assistance for dislocated workers and other eligible individuals as defined in sections 101, 134 and 173 of WIA: sections 113, 114,

and 203 of the Trade Act of 2002 and 20 CFR 671.140.

Ira L. Mills,

Departmental Clearance Officer/Team Leader.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts; Submission for OMB Review: Comment Request

The National Endowment for the Arts (NEA) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 [P.L. 104-13, 44 U.S.C. Chapter 35]. Copies of this ICR, with applicable supporting documentation, may be obtained by contacting Sunil Iyengar via telephone at 202-682-5424 (this is not a toll-free number) or e-mail at research@arts.endow.gov. Individuals who use a telecommunications device for the deaf (TTY/TDD) may call 202-682-5496 between 10 a.m. and 4 p.m. Eastern time, Monday through Friday.

Comments should be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the National Endowment for the Arts, Office of Management and Budget, Room 10235, Washington, DC 20503 202-395-7316, within 30 days from the date of this publication in the **Federal Register**.

The Office of Management and Budget (OMB) is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology, e.g., permitting electronic submissions of responses.

Agency: National Endowment for the Arts.

Title: Big Read Program Evaluation.

OMB Number: New.

Frequency: One Time.

Affected Public: Individuals.

Estimated Number of Respondents: 14,120.

Estimated Time Per Respondent: 8 minutes.

Total Burden Hours: 1,883.

Total Annualized Capital/Startup Costs: 0.

Total Annual Costs (Operating/Maintaining Systems or Purchasing Services): 0.

Description: The National Endowment for the Arts plans to conduct an evaluation to assess the Big Read program at the national level. The Big Read is an initiative of the National Endowment for the Arts (NEA), in partnership with the Institute of Museum and Library Services (IMLS) and in cooperation with Arts Midwest, designed to revitalize the role of literature in American popular culture by providing citizens with the opportunity to read and discuss a single book of fiction within their communities. The evaluation is aimed at assessing the design of the 2007-08 Big Read program and to assess the program's impact on literary reading habits in participating communities. The activities include collecting uniform data from all sites, coordinating local and national data collection—and still keep data collection burdens to a minimum.

As a national study, the Big Read Evaluation will serve as a sound base from which to make estimates of the impact of the initiatives on partnering organizations, communities, and individuals. The Big Read evaluation data will also provide information on the characteristics of those who participate in the initiative and the degree to which the initiative is reaching previously under-represented groups.

ADDRESSES: Sunil Iyengar, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Room 616, Washington, DC 20506-0001, telephone (202) 682-5424 (this is not a toll-free number), fax 202/682-5677.

Murray Welsh,

Director, Administrative Services, National Endowment for the Arts.

BILLING CODE 7537-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-261]

Carolina Power and Light; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Renewed Facility Operating License No. DPR-23 issued to Carolina Power and Light (the licensee) for operation of the H. B. Robinson Steam Electric Plant (HBRSEP), Unit No. 2 located in Darlington County, South Carolina.

The proposed amendment would modify Technical Specification (TS) 5.5.9 to add steam generator (SG) alternate repair criteria and TS 5.6.8 to add additional SG reporting requirements.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Under the Commission's regulations in Title 10 of the CODE OF FEDERAL REGULATIONS (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) Involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. The Proposed Change Does Not Involve a Significant Increase in the Probability or Consequences of an Accident Previously Evaluated.

The proposed change does not involve physical changes to any plant structure, system, or component. The inspection of the portion of the steam generator tubes within the tubesheet region is being changed to identify the appropriate scope of inspection and the criteria for plugging tubes that are found with degradation. The proposed requirements will continue to ensure that the probability of a steam generator tube rupture accident is not increased. Therefore, the probability of occurrence for a previously analyzed accident is not significantly
