Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenter's wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2006-28771/Airspace Docket No. 07-ACE-8." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is non-controversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority

since it contains aircraft executing instrument approach procedures to Fort Scott Municipal Airport, KS.

14 CFR Part 71

[Docket No. FAA-2006-26364; Airspace Docket No. 06-ANM-12]

Establishment of Class E Airspace; Beaver, UT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action will establish Class E airspace at Beaver, UT. Additional Class E airspace is necessary to accommodate aircraft using a new Area Navigation (RNAV) Global Positioning System (GPS) Instrument Approach Procedure (SIAP) at Beaver Municipal Airport. This will improve the safety of Instrument Flight Rules (IFR) aircraft executing the new RNAV GPS IAP at Beaver Municipal Airport, Beaver, UT.

DATES: 0901 UTC, October 25, 2007. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On February 23, 2007, the FAA published in the **Federal Register** a notice of proposed rulemaking to establish Class E airspace at Beaver, UT, (72 FR 8136). This action would improve the safety of IFR aircraft executing this new RNAV GPS approach procedure at Beaver Municipal Airport, Beaver, UT. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9P, dated September 1, 2006, and effective September 15, 2006, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing Class E airspace at Beaver, UT. Additional controlled airspace is necessary to accommodate IFR aircraft executing the new RNAV (GPS) approach procedure at Beaver Municipal Airport, Beaver, UT.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation; (1) is

not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

[Docket Number: OSHA–2007–0028]

RIN 1218–AC25

Procedures for the Handling of Retaliation Complaints Under the Employee Protection Provisions of Six Federal Environmental Statutes and Section 211 of the Energy Reorganization Act of 1974, as Amended

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Interim final rule; request for comments.

SUMMARY: The Department of Labor amends the regulations governing the employee protection (“whistleblower”) provisions of Section 211 of the Energy Reorganization Act of 1974, as amended (“ERA”), to implement the statutory changes enacted into law on August 8, 2005, as part of the Energy Policy Act of 2005. The regulations also make the procedures for handling retaliation complaints under Section 211 of the ERA and the environmental whistleblower statutes listed in Part 24 as consistent as possible with the more recently promulgated procedures for handling retaliation complaints under other employee protection provisions administered by the Occupational Safety and Health Administration (“OSHA”), see 29 CFR parts 1979–1981.

DATES: This interim final rule is effective on August 10, 2007. Comments and additional materials must be submitted (postmarked, sent or received) by October 9, 2007.

ADDRESSES: You may submit comments and additional materials by any of the following methods:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for making electronic submissions.

Fax: If your submissions, including attachments, do not exceed 10 pages,

you may fax them to the OSHA Docket Office at (202) 693–1648.

Mail, hand delivery, express mail, messenger or courier service: You must submit three copies of your comments and attachments to the OSHA Docket Office, Docket No. OSHA–2007–0028, U.S. Department of Labor, Room N–2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger and courier service) are accepted during the Department of Labor’s and Docket Office’s normal business hours, 8:15 a.m.–4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and the OSHA docket number for this rulemaking (Docket No. OSHA–2007–0028). Submissions, including any personal information you provide, are placed in the public docket without change and may be made available online at <http://www.regulations.gov>. Therefore, OSHA cautions you about submitting personal information such as social security numbers and birth dates. For further information on submitting comments plus additional information on the rulemaking process, see the “Public Participation” heading in the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: To read or download submissions or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office.
