**NUCLEAR REGULATORY  
COMMISSION**

**Biweekly Notice; Applications and  
Amendments to Facility Operating  
Licenses Involving No Significant  
Hazards Considerations**

**I. Background**

Pursuant to section 189a. (2) of the  
Atomic Energy Act of 1954, as amended  
(the Act), the U.S. Nuclear Regulatory  
Commission (the Commission or NRC  
staff) is publishing this regular biweekly  
notice. The Act requires the  
Commission publish notice of any  
amendments issued, or proposed to be  
issued and grants the Commission the  
authority to issue and make  
immediately effective any amendment  
to an operating license upon a  
determination by the Commission that  
such amendment involves no significant  
hazards consideration, notwithstanding  
the pendency before the Commission of  
a request for a hearing from any person.

This biweekly notice includes all  
notices of amendments issued, or  
proposed to be issued from July 19,  
2007, to August 1, 2007. The last  
biweekly notice was published on July  
31, 2007 (72 FR 41780).

**Notice of Consideration of Issuance of  
Amendments to Facility Operating  
Licenses, Proposed No Significant  
Hazards Consideration Determination,  
and Opportunity for a Hearing**

The Commission has made a  
proposed determination that the  
following amendment requests involve  
no significant hazards consideration.  
Under the Commission's regulations in  
10 CFR 50.92, this means that operation  
of the facility in accordance with the  
proposed amendment would not (1)  
involve a significant increase in the  
probability or consequences of an  
accident previously evaluated; or (2)  
create the possibility of a new or  
different kind of accident from any  
accident previously evaluated; or (3)  
involve a significant reduction in a  
margin of safety. The basis for this  
proposed determination for each  
amendment request is shown below.

The Commission is seeking public  
comments on this proposed  
determination. Any comments received  
within 30 days after the date of  
publication of this notice will be  
considered in making any final  
determination. Within 60 days after the  
date of publication of this notice, the  
licensee may file a request for a hearing  
with respect to issuance of the  
amendment to the subject facility  
operating license and any person whose  
interest may be affected by this  
proceeding and who wishes to  
participate as a party in the proceeding  
must file a written request for a hearing  
and a petition for leave to intervene.

Normally, the Commission will not  
issue the amendment until the  
expiration of 60 days after the date of  
publication of this notice. The  
Commission may issue the license  
amendment before expiration of the 60-  
day period provided that its final  
determination is that the amendment  
involves no significant hazards  
consideration. In addition, the  
Commission may issue the amendment  
prior to the expiration of the 30-day  
comment period should circumstances  
change during the 30-day comment  
period such that failure to act in a  
timely way would result, for example in  
derating or shutdown of the facility.  
Should the Commission take action  
prior to the expiration of either the  
comment period or the notice period, it  
will publish in the **Federal Register** a  
notice of issuance. Should the  
Commission make a final No Significant  
Hazards Consideration Determination,  
any hearing will take place after  
issuance. The Commission expects that  
the need to take this action will occur  
very infrequently.
