

head excursion requirement when tested with the weighted 6 year-old dummy, also has the potential for increased forward movement of the head in excess of the required limit in the event of a top tether failure. We note that, as the Britax explanation makes clear, the head excursion limit (720 mm) was exceeded in one out of the three tests the company performed. In that test, the tether hook opened. In the other two tests performed by Britax, the tether hook did not open and the head excursions were substantially less. Furthermore, lower biomechanical responses would naturally occur as a result of increased excursion due to a top tether failure.

Finally, NHTSA agrees with Advocates that granting this petition would send a mixed message to the public regarding the use of tethers and would be contradictory to NHTSA's mission to promote greater use of LATCH and tether.

In consideration of the foregoing, NHTSA has decided that the petitioner has not met its burden of persuasion that the noncompliance described is inconsequential to motor vehicle safety. Accordingly, Britax's petition is hereby denied, and the petitioner must notify according to 49 U.S.C. 30118 and remedy according to 49 U.S.C. 30120.

Authority: 49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: August 15, 2007.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Applications for Modification of Special Permit

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of applications for modification of special permit.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Request of modifications of special permits (e.g. to provide for additional hazardous

materials, packaging design changes, additional mode of transportation, etc.) are described in footnotes to the application number. Application numbers with the suffix "M" denote a modification request. These applications have been separated from the new application for special permits to facilitate processing.

DATES: Comments must be received on or before September 5, 2007.

ADDRESS COMMENTS TO: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Records Center, East Building, PHH-30, 1200 New Jersey Avenue Southeast, Washington, DC or at <http://dms.dot.gov>.

The notice of receipt of applications for modification of special permit is published in accordance with Part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on August 14, 2007.

Delmer F. Billings,

Director, Office of Hazardous Materials, Special Permits and Approvals.
