

DATES: We will consider all comments that we receive on or before December 11, 2007.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>, select "Animal and Plant Health Inspection Service" from the agency drop-down menu, then click "Submit." In the Docket ID column, select APHIS-2007-0112 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site's "User Tips" link.

- *Postal Mail/Commercial Delivery:* Please send four copies of your comment (an original and three copies) to Docket No. APHIS-2007-0112, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2007-0112.

Reading Room: You may read any comments that we receive on the draft pest risk assessment in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Mr. Juan Roman, Import Specialist, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1237; (301) 734-8758.

SUPPLEMENTARY INFORMATION: On August 13, 2007, we published in the **Federal Register** (72 FR 45216-45217, Docket No. APHIS-2007-0112) a notice of availability and request for comments. That document notified the public that a draft pest risk assessment had been prepared by the Animal and Plant Health Inspection Service relative to our consideration of a request to allow the importation into the continental United States of fresh lemons from Argentina. The notice made the draft pest risk assessment available to the public for review and comment.

Comments on the notice were required to be received on or before October 12, 2007. We are extending the comment period on Docket No. APHIS-2007-0112 for an additional 60 days. This action will allow interested persons additional time to prepare and submit comments.

Authority: 7 U.S.C. 450, 7701-7772, and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 21st day of September 2007.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Agency Information Collection Activities: Proposed Collection; Comment Request—WIC National Universal Product Code (NUPC) Database

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice invites the general public, and other public agencies to comment on a proposed information collection. This notice announces the Food and Nutrition Service's (FNS) intention to request Office of Management and Budget approval of the voluntary information collection process to be used in the National Universal Product Code (NUPC) database, an electronic national repository of Special Supplemental Nutrition Program for Women, Infants, and Children Program (WIC) eligible foods that have been authorized or approved by WIC State agencies. Section 203(e)(12) of the Child Nutrition and WIC Reauthorization Act of 2004 requires the Secretary to establish an NUPC database for use by State agencies in carrying out the program.

DATES: Written comments on this notice must be received on or before November 26, 2007.

ADDRESSES: Comments may be sent to Patricia N. Daniels, Director, Supplemental Food Programs Division, Food and Nutrition Service, U.S. Department of Agriculture, 3101 Park Center Drive, Alexandria, VA 22302. Pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), comments are invited on (a) Whether the proposed

collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All written comments will be open for public inspection at the office of the Food and Nutrition Service during regular business hours (8:30 a.m. to 5 p.m., Monday through Friday) at 3101 Park Center Drive, Alexandria, Virginia 22302, Room 520.

All responses to this notice will be summarized and included in the request for OMB approval, and will become a matter of public record.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of this information collection should be directed to Patty Davis, (703) 305-2746.

SUPPLEMENTARY INFORMATION:

Title: The WIC National Universal Product Code (NUPC) database.

OMB Number: To be assigned.

Expiration Date: To be determined.

Type of Request: New information collection.

Abstract: The mandated NUPC database will serve as a repository of Universal Product Codes pertaining to WIC Program foods. The database will be accessible on a voluntary basis to both food manufacturers and WIC Program State agencies. It will provide a standardized format for manufacturers to electronically submit product information for consideration for inclusion in WIC State agency authorized food lists. The system will automatically screen products entered by manufacturers for compliance with minimum Federal regulatory requirements. State agencies will be able to review and select for approval those products that have successfully been screened. Each WIC State agency's list of approved foods will be available via the NUPC database. The database will initially be populated with product information that is available from the WIC State agencies currently operating an Electronic Benefits Transfer system. We assume this will provide product information for the majority of foods

that are currently authorized by WIC State agencies.

Comments are being solicited on whether the NUPC will decrease the burden on WIC State agencies and manufacturers by providing a uniform data source for submitting products for WIC review and eligibility. The burden hours associated with this collection burden will be for updates to existing products and the addition of new products as they become available and authorized. We estimate that for this burden reporting period, 1,000 manufacturers will spend a total of 125 burden hours to report new product information and update existing product information when necessary; 20 State agencies (40 users) will spend a total of 5 burden hours to report new product information, update existing product information, and, upload/download products to their State agency approved list, and 2 Federal users will spend a total of ½ hour to report new infant formula product information and update formula product information when necessary. The total number of burden hours for this reporting period is 130.50 hours.

Affected Public: Manufacturers, WIC State agencies, and Federal government.

Estimated Number of Respondents: 1,022.

Number of Responses per Respondent: 2.

Estimated Total Annual Responses: 2,044.

Hours per Response: 0.063.

Estimated Total Annual Burden: 131.

Dated: September 12, 2007.

Roberto Salazar,

Administrator, Food and Nutrition Service.

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Forest Service

Green Mountain National Forest; Vermont; Deerfield Wind Project

AGENCY: Forest Service, USDA.

ACTION: Revision, notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service is processing an application for a special use authorization from Deerfield Wind, LLC for the installation and operation of wind turbines on National Forest System (NFS) lands managed by the Green Mountain National Forest (GMNF). This notice revises the "responsible official", updates the expected dates for the release of the EIS,

makes minor modifications to certain parts of the proposed action, and asks for comments on those modifications.

DATES: Comments concerning the scope of the analysis, specifically in regard to the modifications to the original proposed action, should be received by October 19, 2007. The draft environmental impact statement is now expected in January 2008 and the final environmental impact statement is expected in July 2008.

ADDRESSES: Send written comments to Bob Bayer, Project Coordinator, Manchester Ranger District, USDA Forest Service, 2538 Depot Street, Manchester Center, VT 05255.

FOR FURTHER INFORMATION CONTACT: Bob Bayer, Project Coordinator, Manchester Ranger District, USDA Forest Service, 2538 Depot Street, Manchester Center, VT 05255; 802-362-2307 ext. 218; e-mail: rbayer@fs.fed.us.

SUPPLEMENTARY INFORMATION: The original notice of intent to prepare the Deerfield Wind Project EIS was published in the **Federal Register** on July 15, 2005 (Vol. 70, No. 135, page 409750). Revisions are as noted here. The responsible official is now Meg Mitchell, Forest Supervisor, Green Mountain and Finger Lakes National Forest. The expected dates for the release of the EIS is as noted above. The proposed action has been clarified as follows.

Modifications to the Proposed Action

The Deerfield Wind Project is now proposed to consist of 17 wind turbines with a rotor size of 87 or 88 meters in diameter for a total turbine height from ground to the top of the blade tip at about 400 to 410 feet and a name plate power rating of 2.0 or 2.1 megawatts (MW), depending upon which model of turbine is selected. The original notice proposed 20 to 30 turbines approximating 340-370 feet in height with a power rating of between 1.5 to 2.0 MW per turbine. The site will now be capable of producing 34 or 35.7 MW whereas the original proposal called for a site capacity of 30 to 45 MW of electricity. Access to the western project area will be from the north along a private road known as the Putnam Road, and will extend westerly onto Forest Service land, rather than from the south end of the project site as originally proposed. A storage and maintenance building and a new substation will be sited along the northern access road. An alternative to connect to an existing Green Mountain Power Company substation on private land on the east side of Route 8 is no longer feasible due to capacity issues.

Responsible Official

Meg Mitchell, Forest Supervisor, Green Mountain and Finger Lakes National Forests, 231 North Main Street, Rutland, VT 05701-2417.

Comments Requested

This revised notice of intent continues the process of gathering comments which guides the development of the environmental impact statement. The primary purpose is to gather public comments, issues, and concerns regarding the proposed action. Comments, issues and concerns will be used to help formulate alternatives to the proposed action. Please make your written comments as specific as possible as they relate to the modifications of the proposed action. There is no need to re-submit comments or thoughts that you have already submitted during the formal scoping process held in July-August of 2005. Those people new to the process at this time may feel free to provide a broader range of comments. Include your name, address, and, if possible, telephone number and e-mail address. Comments received in response to this solicitation, including the names and addresses of those who comment, will be considered part of the public record and will be available for public inspection. Comments submitted anonymously will be accepted and considered. Additionally, pursuant to 7 CFR 127(d), any person may request that a submission be withheld from the public record by showing how the Freedom of Information Act permits such confidentiality. Persons requesting such confidentiality should be aware that confidentiality is granted in only very limited circumstances. The Forest Service will inform the requester of its decision regarding a request for confidentiality. Where the request is denied, the submission will be returned, and the requester notified that the comments may be resubmitted with or without name and address.

Dated: September 20, 2007.

Steve Roy,

Acting Forest Supervisor.
