

consumers believe may have aired obscene, profane, and/or indecent programming. FCC Form 475-B remains unchanged.

OMB Control No.: 3060-0967.

OMB Approval Date: 09/05/2007.

Expiration Date: 09/30/2010.

Title: Section 79.2, Accessibility of Programming Providing Emergency Information.

Form No.: N/A.

Estimated Annual Burden: 100 responses; 1 to 2 hours per response; 210 total annual hourly burden.

Needs and Uses: 47 CFR 79.2 is designed to ensure that persons with hearing and visual disabilities have access to the critical details of emergency information. The Commission adopted the rules to assist persons with hearing disabilities on April 14, 2000, in the *Second Report and Order* in MM Docket No. 95-176. The Commission modified the rules to assist persons with visual disabilities on July 21, 2000, in the *Report and Order* in MM Docket No. 99-339. As the Commission noted in the previous PRA submission, the Commission adopted its rules for persons with different disabilities at different times.

47 CFR 79.2(c) requires that each complaint transmitted to the Commission include the following: the name of the video programming distributor at issue; the date and time of the omission of the emergency information; and the type of emergency. The Commission then notifies the video programming distributor, which must reply within 30 days.

OMB Control No.: 3060-0968

OMB Approval Date: 09/13/2007.

Expiration Date: 09/30/2010.

Title: Slamming Complaint Form.

Form No.: FCC Form 501.

Estimated Annual Burden: 3,600 responses; 15 minutes per response; 900 total annual hourly burden.

Needs and Uses: On December 17, 1998, the Commission announced to the public via news release its plan to provide consumers with tools to better protect themselves from telephone related fraud, as well as offer consumers an easy means to file complaints. On December 23, 1998, the Commission released a *Second Report and Order and Further Notice of Proposed Rulemaking* (FCC 98-334) adopting new rules to prevent the unauthorized change by telecommunications carriers of consumers' selections of telecommunications service providers (slamming), and revealing future initiatives to protect consumers from telephone related fraud. One of those initiatives was the development of the electronic slamming complaint form:

FCC Form 501. FCC Form 501, Slamming Complaint Form, is devised to ensure complete and efficient submission of necessary information to process slamming complaints. FCC Form 501 remains available to consumers electronically and in hard copy. The Commission will use this information to provide redress to consumers and to act against companies engaged in this illegal practice.

OMB Control No.: 3060-1084.

OMB Approval Date: 06/25/2007.

Expiration Date: 06/30/2010.

Title: Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local and Interexchange Carriers (CARE).

Form No.: N/A.

Estimated Annual Burden: 433,040 responses; 0.27 to 6.7 hours per response; 39,840 total annual hourly burden.

Needs and Uses: In addition to the existing information collection requirements that we previously approved by OMB, in the Order on Reconsideration, In the Matter of Rules and Regulations Implementing Minimum Customer Account Record Exchange Obligations on All Local Exchange Carriers (LECs) and Interexchange Carriers (IXCs) (2005 Report and Order), CG Docket No. 02-386, FCC 06-134, which was released on September 13, 2006, the Commission concluded that minor modifications to 47 CFR 64.4002 are needed to clarify carriers' respective obligations under that rule section.

Paragraph 64.4002(d) is modified to require that LEC notify an IXC when the LEC has removed at its local switch a presubscribed customer of the IXC in connection with the customer's selection of "no-PIC" (preferred interexchange carrier) status. In this context, the selection of "no-PIC" status by the customer refers to the selection of no carriers for interLATA (Local Access Transport and Area) service or no carrier for interLATA service. The Commission concludes that this modification is needed to ensure that an IXC does not continue billing a customer for non-usage-related monthly charges where that customer has contacted his current LEC or his current IXC to select "no-PIC" status.

Paragraph 64.4002(e) of the Commission's rules is modified to include the effective date of any changes to a customer's local service account and the carrier identifications code of the customer's IXC among the categories of information that must be provided to the IXC by the LEC. The Commission concludes that knowing the effective

date of account changes will help IXCs to maintain accurate customer account information and that including the carrier identification code of the customer's IXC will enable an IXC to verify that it is the proper recipient of the transmitted information.

Paragraph 64.402(g) of the Commission's rules is modified to make the information categories included in paragraph 64.402(g) consistent with those included in other LEC notifications requirements. Paragraph 64.4002(g) also is modified to require that when a customer changes LECs, but wishes to retain his current PIC, the new LEC must so notify the current PIC so that the current PIC does not erroneously assume, absent additional notification from the new LEC, that the customer also wishes to cancel his current PIC.

Federal Communications Commission.
