SUPPLEMENTARY INFORMATION:

Background

On September 20, 2007, the FHWA published its NPRM in the **Federal Register** at 72 FR 53736. As required under section 1604(b)(6) of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), the proposed rule specifies the interoperability requirements for automated toll collection systems for the facilities that are tolled under any of the tolling programs contained in section 1604 of SAFETEA-LU. Specifically, this NPRM proposes to require facilities operating with authority under section 1604 of SAFETEA-LU to use electronic toll collection systems and for these systems to address their interoperability with other toll facilities. Although a nationwide interoperability standard has not yet been established, the proposed rule seeks to accelerate progress toward achieving nationwide interoperability by requiring these facilities to upgrade their electronic toll collection systems to the national standards whenever adopted.

The September 20, 2007, notice announced a public meeting on October 11, 2007, to discuss the NPRM. In response to comments received, the FHWA has decided to hold an additional public meeting on October 18, 2007.

Public Meetings

The public meetings will be held at the address listed above. The FHWA invites participation in these meetings by all those interested in the above noted NPRM. Written submissions are welcome, although not required for participation. The FHWA expects each meeting to last approximately three hours. No pre-registration is required for participation.

Issued on: September 26, 2007.
