Attention Docket ID No. EPA-HQ-RCRA-2006-0796. Such deliveries are only accepted during the docket's normal hours of operation (8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays), and special arrangements should be made for deliveries of boxed information.

**Instructions:** Direct your comments to Docket ID No. EPA-HQ-RCRA-2006-0796. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [www.regulations.gov](http://www.regulations.gov) or e-mail. The <http://www.regulations.gov> website is an

"anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket, visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>. We also request that interested parties who would like information they previously submitted to EPA to be considered as part of this action, identify the relevant information by docket entry numbers and page numbers. For additional instructions on submitting comments, go to the **SUPPLEMENTARY INFORMATION** section of this document.

**SUPPLEMENTARY INFORMATION:** The NODA that is the subject of this notice, and which was published in the **Federal Register** on August 29, 2007 (72 FR 49714), announces the availability of new information and data contained in three documents that the Agency is requesting public comments on, concerning the management of CCW in landfills and surface impoundments. The three documents that the Agency is requesting comments on are: A joint U.S. Department of Energy (DOE) and EPA report entitled, *Coal Combustion Waste Management at Landfills and Surface Impoundments, 1994-2004*; a draft risk assessment conducted by EPA on the management of CCW in landfills and surface impoundments; and EPA's damage case assessment. The Agency is soliciting comments on the extent to which the damage case information, the results of the risk assessment, and the new liner and ground water monitoring information from the DOE/EPA report should affect the Agency's decisions. EPA is also requesting direct comment on the draft risk assessment document to help inform a planned peer review. In addition, the Agency has included in the docket to the NODA a rulemaking petition submitted by a number of citizens' groups. Furthermore, the Agency has included in the docket to the NODA two approaches regarding the management of CCW, one prepared by the electric utility industry and the other prepared by a number of citizens' groups. The Agency will consider all the information provided through the NODA, the comments and new information submitted on the NODA, as well as the results of a subsequent peer review of the risk assessment, as it continues to follow-up on its Regulatory Determination for CCW disposed of in landfills and surface impoundments.

The comment period for the NODA was scheduled to end on November 27, 2007. However, a number of environmental groups (Earthjustice, Environmental Integrity Project, Clean Air Task Force, Kentucky Resources Council, Army for a Clean Environment, and Delaware Riverkeeper Network) have requested that EPA extend the comment period by 75 days, noting that

additional time is needed in order to comment meaningfully on the information contained in the NODA and to perform extensive analysis on several documents, some of which are highly technical. The commenters also noted that, due to the length and complexity of the draft risk assessment ("Human and Ecological Risk Assessment of Coal Combustion Wastes"), it will be necessary to engage expert review that will consequently increase the time necessary to prepare their comments.

EPA believed that the 90-day public comment period originally established was reasonable. However, since the Agency will be considering all the information provided through the comments and new information submitted on the NODA, as well as the results of a subsequent peer review of the risk assessment, we believe it is important that commenters have adequate time to analyze the data noticed in the NODA so that they may provide informed and meaningful comments to the Agency. Therefore, we have decided to extend the comment period by 60 days, thereby extending the comment period to 150 days. We believe an additional 60 days is adequate for commenters to analyze the data noticed in the NODA and available in the docket to the NODA. Because the 60-day extension ends on January 26, 2008, which is a Saturday, the comment period will actually be extended until the following Monday, January 28, 2008.

Dated: September 28, 2007.

## **FEDERAL COMMUNICATIONS COMMISSION**

**[CC Docket No. 92-237; DA 07-4080]**

### **GSA Approves Renewal of North American Numbering Council Charter Through September 27, 2009**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice.

**SUMMARY:** On October 2, 2007, the Commission released a public notice announcing GSA approves renewal of North American Numbering Council charter through September 27, 2009. The intended effect of this action is to make the public aware of the renewal of the North American Numbering Council charter.

**DATES:** Renewed through September 27, 2009.

**ADDRESSES:** Competition Policy Division, Wireline Competition Bureau, Federal Communications Commission, The Portals II, 445 12th Street, SW., Suite 5-C162, Washington, DC 20554.

**FOR FURTHER INFORMATION CONTACT:** Deborah Blue, Special Assistant to the Designated Federal Officer (DFO) at (202) 418-1466 or [Deborah.Blue@fcc.gov](mailto:Deborah.Blue@fcc.gov). The fax number is: (202) 418-2345. The TTY number is: (202) 418-0484.

**SUPPLEMENTARY INFORMATION:** Released October 2, 2007.

The GSA has renewed the charter of the North American Numbering Council (Council) through September 27, 2009. The Council will continue to advise the Federal Communications Commission (Commission) on rapidly evolving and competitively significant numbering issues facing the telecommunications industry.

In October 1995, the Commission established the North American Numbering Council, a federal advisory committee created pursuant to the Federal Advisory Committee Act, 5 U.S.C., App. 2 (1988), to advise the Commission on issues related to North American Numbering Plan (NANP) administration in the United States, including local number portability administration issues. The original charter of the Council was effective on October 5, 1995, establishing an initial two-year term. Amended charters were filed on October 5, 1997, October 5, 1999, October 5, 2001, October 5, 2003, and September 26, 2005 each renewing the term of the charter for an additional two years.

Since the last charter renewal, the Council has provided the Commission with critically important recommendations regarding number administration, such as the development and recommendation of interim and permanent guidelines for pseudo Automatic Number Identification administration. In addition, the Council developed and recommended technical requirements for a request for proposals associated with a new Pooling Administrator (PA) contract. The Council also provided detailed evaluations of the North American Numbering Plan Administrator (NANPA) and the PA. The Council will continue to evaluate the NANPA's and the PA's performances annually.

Moreover, the Council is presently considering and formulating recommendations on other important numbering-related issues that will require work beyond the term of the present charter. The term of the

Council's renewed charter begins September 27, 2007 and runs through September 27, 2009.

The value of this federal advisory committee to the telecommunications industry and to the American public cannot be overstated. Numbers are the means by which consumers gain access to, and reap the benefits of, the public switched telephone network. The Council's recommendations to the Commission will facilitate fair and efficient number administration in the United States, and will ensure that numbering resources are available to all telecommunications service providers on a fair and equitable basis, consistent with the requirements of the Telecommunications Act of 1996.
