

2.0 data (or both), would continue to pay TotalView rates at the TotalView fee schedule. For those firms this in this category who had previously provided only the INET ITCH 1.0 and/or INET ITCH 2.0 data to certain customers, and who are able to separately identify these users from those users as receiving TotalView data via the INET ITCH 1.0 and/or INET ITCH 2.0 data feed, these users also would be afforded the same period (until February 1, 2007) to begin their TotalView fee liability.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 6 of the Act¹⁸ in general, and Section 6(b)(4) of the Act¹⁹ in particular, in that it provides an equitable allocation of reasonable fees among users and recipients of the data, and it makes TotalView data available on a non-discriminatory basis to similarly situated recipients.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. As a general matter, the Commission has long held the view that "competition and innovation are essential to the health of the securities markets. Indeed, competition is one of the hallmarks of the national market system."²⁰ The Commission has also stated "that the notion of competition is inextricably tied with the notion of economic efficiency, and the Act seeks to encourage market behavior that promotes such efficiency, lower costs, and better service in the interest of investors and the general public."²¹

The Commission goes on to state its belief "that the appropriate analysis to determine a proposal's competitive impact is to weigh the proposal's overall benefits and costs to competition based on the particular facts involved, such as examining whether the proposal would promote economically efficient execution of securities and fair competition between and among exchange markets and other market centers, as well as fair competition between the participants of a particular market."²² The current proposal is designed to increase transparency and

the efficiency of executions by enabling vendors to provide additional market data in a cost efficient manner.

There is significant competition for the provision of market data to broker-dealers and other market data consumers, as well as competition for the orders that generate the data. Nasdaq fully expects its competitors to quickly respond to this proposal as they have responded to other Nasdaq data products in the past. Moreover, market forces have shaped the market data fees that Nasdaq has charged for this product in the past and will continue to shape those fees in the future. As noted above, the Commission originally approved a fee of \$150 for TotalView. Nasdaq lowered that fee to \$70 and \$14 in response to the lack of demand by vendors and users. Furthermore, NASDAQ introduced both professional and non-professional Enterprise License pricing to accommodate firms interest in paying a fixed fee for unlimited distribution of TotalView data. Vendors simply will only utilize the service unless and until they conclude that it is economically beneficial to them and to their users.

Small Business Size Standards: Waiver of the Nonmanufacturer Rule

AGENCY: U.S. Small Business Administration.

ACTION: Notice of intent to Waive the Nonmanufacturer Rule for Re-refining Used Petroleum Lubricating Oils (MIL-PRF-2104, Type 10W; Type 15W40; Type 30W; and Type 40W).

SUMMARY: The U.S. Small Business Administration (SBA) is considering granting a request for a waiver of the Nonmanufacturer Rule for Re-refining Used Petroleum Lubricating Oils (MIL-PRF-2104, Type 10W; Type 15W40; Type 30W; and Type 40W). According to the request, no small business manufacturers supply these classes of products to the Federal Government. If granted, the waiver would allow otherwise qualified regular dealers to supply the products of any domestic manufacturer on a Federal contract set aside for small businesses; service-disabled veteran-owned small businesses or SBA's 8(a) Business Development Program.

DATES: Comments and source information must be submitted January 22, 2007.

ADDRESSES: You may submit comments and source information to Sarah Ayers, Program Analyst, U.S. Small Business Administration, Office of Government Contracting, 409 3rd Street, SW., Suite 8800, Washington, DC 20416.

FOR FURTHER INFORMATION CONTACT:

Sarah Ayers, Program Analyst, by telephone at (202) 205-6413; by fax at (202) 205-6390; or by e-mail at sarah.ayers@sba.gov.

SUPPLEMENTARY INFORMATION: Section 8(a)(17) of the Small Business Act (Act), 15 U.S.C. 637(a)(17), requires that recipients of Federal contracts set aside for small businesses, service-disabled veteran-owned small businesses, or SBA's 8(a) Business Development Program provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor of the product. This requirement is commonly referred to as the Nonmanufacturer Rule. The SBA regulations imposing this requirement are found at 13 CFR 121.406(b). Section 8(a)(17)(b)(iv) of the Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

As implemented in SBA's regulations at 13 CFR 121.1202(c), in order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal Government within the last 24 months. The SBA defines "class of products" based on six digit coding system. The coding system is the Office of Management and Budget North American Industry Classification System (NAICS).

The SBA is currently processing a request to waive the Nonmanufacturer Rule for Re-refining Used Petroleum Lubricating Oils (MIL-PRF-2104, Type 10W; Type 15W40; Type 30W; and Type 40W). North American Industry Classification System (NAICS) code 324191.

The public is invited to comment or provide source information to SBA on the proposed waivers of the Nonmanufacturer Rule for this class of
