

to discuss critical scientific information needs related to long term conservation and management of the NWHI. Over 100 research scientists and resource managers attended the workshop representing agencies, universities, and organizations nationwide. The workshop resulted in the identification of five priority research areas to support management in the NWHI. These are described in detail in a document called the final Information Needs for Conservation and Management of the Northwestern Hawaiian Islands Report, which is available at http://hawaiiireef.noaa.gov/research/2002Workshop/NWHI_Summary.pdf.

On June 15, 2006, President Bush signed Presidential Proclamation 8031 (Proclamation) establishing the Northwestern Hawaiian Islands Marine National Monument, subsequently renamed the Papahānaumokuākea Marine National Monument. The Monument is administered by the U.S. Department of Commerce through NOAA, U.S. Department of the Interior through the Fish and Wildlife Service (FWS), and the State of Hawaii through the Department of Land and Natural Resources (DLNR) (collectively, the Co-Trustees). The Proclamation provides the authority for the Co-Trustees to issue research permits for activities designed to further understanding of Monument resources and qualities, and to assist in conservation and management of the Monument.

The Science Plan will be used to guide these research activities. It will be based on the results from the information needs workshop, a multi-agency archipelagic research plan (under development), agency expertise and identified management needs, and public input. It will contain five themes relevant to natural resources research: (1) Ecological Processes and Connectivity, (2) Biodiversity and Habitats, (3) Human Impacts, (4) Indicators and Monitoring of Ecosystem Change, and (5) Modeling and Forecasting Ecosystem Change.

The Co-Trustees are seeking public input on the development of the draft Science Plan. Input is requested on the themes proposed in the draft plan, as well as the type of research to be conducted under each theme.

A public scoping meeting will be held in Honolulu to solicit comments. A presentation will highlight the Science Plan development process, including sources of information utilized to date. Following the presentation, the public will be invited to provide written or oral comment on the five thematic research areas and projects that should be conducted under each thematic area.

Written comments will also be accepted at the dates and locations specified in the **DATES** and **ADDRESSES** sections above.

Department of the Army; Corps of Engineers

Notice of Availability of a Supplement to the Draft Environmental Impact Statement (SDEIS) for the Proposed Potash Corporation of Saskatchewan Phosphate Mine Continuation Near Aurora, in Beaufort County, NC

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The U.S. Army Corps of Engineers (COE), Wilmington District, Regulatory Division has been reviewing the request for Department of the Army authorization, pursuant to Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act, from Potash Corporation of Saskatchewan Phosphate Division (PCS) for the continuation of its phosphate mining operation near Aurora, Beaufort County, NC. PCS proposes to expand its existing open pit phosphate mining operation into a 3,412 acre tract immediately adjacent to the current mine. This expansion would impact 2,408 acres of waters of the U.S. including wetlands adjacent to the Pamlico River and South Creek. The Notice of Availability of the Draft Environmental Impact Statement for this action was published in the **Federal Register** on Friday, October 20, 2006 (71 FR 61962).

DATES: Written comments on this SDEIS will be received until December 21, 2007.

ADDRESSES: Comments and questions regarding the SDEIS may be addressed to: U.S. Army Corps of Engineers, Wilmington District, Regulatory Division, ATTN: File Number 2001-10096, Post Office Box 1890, Wilmington, NC 28402-1890. Copies of the Draft EIS can be reviewed on the Wilmington District Regulatory homepage at, <http://www.saw.usace.army.mil/wetlands/regtour.htm>, or contact Ms. Alex Rhodes at (910) 251-4633, to receive written or CD copies of the SDEIS.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and SDEIS can be directed to Mr. Tom Walker, Project Manager, Regulatory Division, telephone: (828) 271-7980 extension 222.

SUPPLEMENTARY INFORMATION: The Corps, on October 20, 2006, released a Draft Environmental Impact Statement (DEIS) evaluating the proposed project and alternatives to the proposed project. Simultaneously, the Corps released a

public notice requesting comment on the DEIS and the applicant's proposed action. Due to the complexity of this project, the comment period was originally set at three months and subsequently extended an additional 2 weeks. A public hearing was held on December 14, 2006. The DEIS contained no designation of an agency preferred alternative.

Since release of the DEIS, the Corps has reviewed comments and further discussed economic practicability with the applicant. As a result of this evaluation the Corps finds it necessary to evaluate an additional alternative, Alternative "L." PCS, on its own initiative, has developed a second additional alternative, Alternative "M," and has requested it be evaluated as well. Both these alternatives are contained within the project area established in the DEIS.

In order to provide the information necessary to objectively evaluate both alternatives "L" and "M" and to compare these alternatives to the alternatives introduced in the DEIS the Corps is releasing this Supplement to the DEIS (SDEIS). The decision whether to issue a Department of the Army Clean Water Act Section 404 permit will be made after completing the required 404(b)(1) analysis and public interest review including full consideration of all comments.

Dated: October 30, 2007.
