Title: Streamlining the International Section 214 Authorization Process and Tariff Requirements.

Respondents: Business or other for-profit.

Number of Respondents: 3,563 respondents; 3,563 responses.

Estimated Time Per Response: 561 hours (average).

Frequency of Response: On occasion, annual and quarterly reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 147,753 hours.

Total Annual Cost: \$16,162,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this revision to the OMB after this 60-day comment period to obtain the full three-year clearance from them.

The Commission released a *Report and Order* on June 22, 2007 in IB Docket No. 04-47, FCC 07-118. Among other requirements, international carriers must notify the Commission at the same time that they notify affected customers of the discontinuance of international service. The Commission reduced the time period for such notification(s) from 60 to 30 days.

If the collections were not conducted or were conducted less frequently, applicants would not obtain the authorizations necessary to provide telecommunications services, and the Commission will be unable to carry out its mandate under the Communications Act of 1934 and the Cable Landing License Act. Furthermore, the Commission would not be able to ensure that applicants and current licensees comply with the Coastal Zone Management Act of 1972 (CZMA) statute. Additionally, without the information collections, the United

States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the World Trading Organization (WTO) Basic Telecom Agreement because these collections are imperative to detecting and deterring anticompetitive conduct. They are also necessary to preserve the Executive Branch agencies' and the Commission's ability to review foreign investments for national security, law enforcement, foreign policy, and trade concerns.

Among other requirements, cable landing applicants and current licensees must comply with an environmental statute, Coastal Zone Management Act of 1972 (CZMA). The statute authorizes states to develop coastal management programs, subject to Federal approval by the U.S. Department of Commerce's National Oceanic and Atmospheric Administration (NOAA). Specifically, they must furnish a certification to the Commission and applicable state(s) that the proposed activity complies with the enforceable policies of the state's approved program and such activity will be conducted in a manner consistent with the program.

If the collection of information is not conducted or is conducted less frequently, applicants will not obtain the authorizations necessary to provide telecommunications services, and the Commission will be unable to carry out its mandate under the Cable Landing License Act and Executive Order 10530. Furthermore, the Commission would

not be able to ensure that applicants and current licensees comply with the Coastal Zone Management Act of 1972 (CZMA) statute. In addition, without this collection of information, the United States would jeopardize its ability to fulfill the U.S. obligations as negotiated under the World Trade Organization (WTO) Basic Telecom Agreement because these information collection requirements are imperative to detecting and deterring anticompetitive conduct. Title: Safe Harbor for Federally Qualified Health Centers Arrangements under the Anti-kickback Statute—OMB No. 0990-New—Office of Inspector General (OIG).

Proposed Project: The Office of the Inspector General (OIG), Office of the Secretary (OS), Department of Health and Human Services (HHS) is requesting a 3-year clearance for the data collection under the anti-kickback statute, as described below. In order for an arrangement between a health center and a donor individual or entity to

enjoy safe harbor protection, the arrangement: (1) Must be set out in writing (§ 1001.952(w)(1)(i)(A)); (2) the written agreement must be signed by the parties (§ 1001.952(w)(1)(i)(B)); (3) the written agreement must cover, and specify the amount of, all goods, items, services, donations, or loans provided by the individual or entity to the health center (§ 1001.952(w)(1)(i)(C)); (4) the health center must document its basis for its reasonable expectation that the arrangement will benefit a medically underserved population (§ 1001.952(w)(3)); and (5) the health center, at reasonable intervals, must reevaluate the arrangement to ensure that it is expected to continue to benefit a medically underserved population, and must document the re-evaluation contemporaneously (§ 1001.952(w)(4)).

OIG may request to see documentation kept pursuant to the safe harbor in order to determine compliance with the terms of the safe harbor and the fraud and abuse laws. Compliance with the safe harbor is voluntary, and no party is ever required to comply with the safe harbor.

The safe harbor does not entail a routine and continuous affirmative collection of data from the regulated community. However, health centers that choose to avail themselves of the safe harbor must have initial documentation and a re-evaluation of the arrangement at least annually. The respondents are businesses and/or other private sector for-profit and not-for-profit institutions.

OIG previously solicited comments on this section of the PRA on July 1, 2005, upon publication of the 60-day notice of proposed rulemaking (70 FR 38081). OIG did not receive any comments specifically addressing the PRA in response to that notice; however, OIG is now providing an additional opportunity for comment on the PRA aspect of the rule only.
