

to assess public reaction to existing protective action strategies, new protective action strategies, and the effectiveness in which these strategies are conveyed to the public. The survey will produce statistical descriptions of likely public reaction to and acceptance of various protective action strategies. The targets for the telephone survey are randomly selected members of the public that reside within the 10-mile EPZs around nuclear power plants. This is a nationwide survey of the public residing within EPZs. The response to the surveys will be used by the NRC in the development of enhancements to its guidance for nuclear power plant protective action recommendations and the means by which this information is disseminated. The survey will also improve the understanding of other areas related to protective action implementation, such as the extent of shadow evacuations and the expected usage of congregate care facilities.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by December 17, 2007. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date. Nathan J. Frey, Office of Information and Regulatory Affairs (3150-XXXX), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to Nathan.J.Frey@omb.eop.gov or submitted by telephone at (202) 395-7345.

The NRC Clearance Officer is Margaret A. Janney, 301-415-7245.

Dated at Rockville, Maryland, this 8th day of November, 2007.

For the Nuclear Regulatory Commission.

Margaret A. Janney,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 150-00043 General License Pursuant to 10 CFR 150.20 EA-06-259; EA-07-230]

In the Matter of Universal Testing, LLC, Clearfield, UT; Confirmatory Order (Effective Immediately)

Universal Testing, LLC (Universal Testing) is the holder of a general license pursuant to 10 CFR 150.20 issued by the Nuclear Regulatory Commission (NRC or Commission). This general license was granted to Universal Testing at various times during calendar years 2005, 2006, and 2007.

II

An NRC inspection was conducted at your Clearfield, Utah, facility on April 4, 2006. Following that inspection, an investigation was initiated on May 8, 2006, by the NRC Office of Investigations (OI) in order to determine whether a radiographer employed by Universal Testing willfully violated NRC regulations.

Based on the results of the NRC inspection and OI investigation, the NRC determined that a violation of NRC requirements occurred. The violation involved a failure to secure an industrial radiography exposure device containing licensed material as required by 10 CFR 20.1801 and 10 CFR 20.1802. The NRC also determined that the violation resulted from willful actions on the part of the radiographer involved.

III

In a letter dated February 23, 2007, the NRC issued a Notice of Violation and Proposed Imposition of Civil Penalty—\$6,500 for the violation. In the February 23, 2007, letter, the NRC offered Universal Testing the opportunity to request Alternative Dispute Resolution (ADR) with the NRC in an attempt to resolve issues associated with these violations. In response to the February 23, 2007, letter, Universal Testing requested ADR to resolve the matter with the NRC. ADR is a process in which a neutral mediator, with no decision-making authority, assists the NRC and Universal Testing to resolve any differences regarding the matter.

An ADR session was conducted between Universal Testing and the NRC in Arlington, Texas, on July 25, 2007. During that ADR session, an Agreement in Principle was reached. The elements of the agreement consisted of the following:

1. Universal Testing will add one additional qualified person to conduct

additional field audits of its radiographers. Universal Testing will conduct at least one unannounced field audit in NRC jurisdiction on each job where that job lasts more than 3 consecutive weeks.

2. For a period of 1-year from the date of this Confirmatory Order, Universal Testing will notify the NRC the same day that it accepts any contract to perform a job in NRC jurisdiction.

3. Within 30 days from the date of this Confirmatory Order, Universal Testing will develop and implement a disciplinary program with a graded approach for infractions. This disciplinary program will consider minor infractions up to willful failures to follow the rules. The disciplinary program will emphasize individual responsibility for radiation safety and radioactive material security, and will encourage reporting safety and security concerns. The disciplinary program will include a requirement that at least one individual who is in possession of a radiography camera be capable of responding to a security alarm.

4. Universal Testing will develop, maintain, and implement a procedure for employees who are in possession of licensed material and who are away from the office, to notify company owners or managers of their location every evening. The intent of the notification is for the company to actively maintain knowledge of where licensed material is located every evening. Universal Testing will develop this procedure within 60 days of the date of this order. This procedure will include a requirement for reporting of safety and security concerns. The procedure will also include actions the company will take to find licensed material when it has not arrived at its expected location.

5. Within 1-year from the date of this Confirmatory Order, Universal Testing will discuss with the Non-Destructive Testing Manager's Association (NDTMA) the possibility of an industry-based program to share information about radiography employees. The concept would be for this industry-based program to assist radiography companies to determine the trustworthiness and reliability of individuals applying for employment.

6. Not later than 1-year from the date of this Confirmatory Order, Universal Testing will discuss with NDTMA the possibility of submitting an article or making a presentation to the membership. The article or presentation will address the conditions of this Confirmatory Order and the value it adds to overall safe and effective operations. Alternatively, Universal

Testing will propose to make a presentation to the local Salt Lake City Chapter of the ASNT on the same subject. Not later than 11 months from the date of this Confirmatory Order, a draft of the proposed article or presentation will be provided to the NRC Region IV office (in advance of the submittal) for review, comment, and concurrence.

7. Universal Testing has expressed its intent to continue seeking radiography business in NRC's jurisdiction.

8. If Universal Testing applies for an NRC license, Universal Testing will request that the conditions of this Confirmatory Order be incorporated into its license.

9. The above provisions would not apply to any existing NRC licensee that may purchase Universal Testing, LLC. Universal Testing will promptly notify NRC Region IV if any existing NRC licensee agrees to purchase Universal Testing.

10. In recognition of the extensive corrective actions, the NRC agrees to reduce the civil penalty originally proposed to \$500.

Some of the above conditions are clarified as indicated below. On October 29, 2007, Universal Testing consented to issuing this Order with the commitments, as described in Section IV below. Universal Testing further agreed that this Order is to be effective upon issuance and that it has waived its right to a hearing.

Accordingly, pursuant to Sections 161b, 161i, 161o, 182, and 186 of the Atomic Energy Act of 1954, as amended, the Commission's regulations in 10 CFR 2.202, 2.205, 10 CFR parts 20, 34, 150, and in part 71 that references 49 CFR 177, *it is hereby ordered, effective immediately, that:*

1. Within 30 days from the date of this Confirmatory Order, Universal Testing, LLC must pay the reduced civil penalty of \$500 in accordance with NUREG/BR-0254 and submit to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, a statement indicating when and by what method payment was made.

2. Universal Testing will add one additional qualified person to conduct additional field audits of its radiographers. Universal Testing will conduct at least one unannounced field audit in NRC jurisdiction on each job where that job lasts more than 3 consecutive weeks.

3. For a period of one year from the date of this Confirmatory Order, Universal Testing will notify the NRC the same day that it accepts any contract to perform a job in NRC jurisdiction.

4. Within 60 days of the date of this Order, Universal Testing will develop, maintain, and implement a procedure that contains the following requirements.

(A) On occasions in which individuals are traveling away from the office, at least one individual who is in possession of a radiography camera shall be capable of responding to a security alarm 24 hours a day.

(B) Employees who are traveling away from the office shall contact company managers every evening and provide company managers with the physical location of the employee and the radiography camera in order for the company to actively maintain knowledge of where licensed material is located.

(C) The procedure will specify the actions company managers will take to locate licensed material when it has not arrived at its expected location and/or when an individual fails to make the required evening contact.

(D) The procedure will require employees to report safety and security concerns.

5. Within 30 days from the date of this Confirmatory Order, Universal Testing will develop, maintain, and implement a disciplinary program with a graded approach for infractions. This disciplinary program will consider minor infractions up to willful failures to follow the rules. The disciplinary program will emphasize individual responsibility for radiation safety and radioactive material security, and will encourage reporting safety and security concerns. The disciplinary program will consider the company's disciplinary actions for situations discussed in Item 4 above.

6. Within 1-year from the date of this Confirmatory Order, Universal Testing will discuss with the Non-Destructive Testing Manager's Association (NDTMA) the possibility of an industry-based program to share information about radiography employees. The concept would be for this industry-based program to assist radiography companies to determine the trustworthiness and reliability of individuals applying for employment.

7. Not later than 1-year from the date of this Confirmatory Order, Universal Testing will discuss with NDTMA the possibility of submitting an article or making a presentation to the membership. The article or presentation will address the conditions of this Confirmatory Order and the value it adds to overall safe and effective operations. Alternatively, Universal Testing will propose to make a presentation to the local Salt Lake City

Chapter of the American Society of Non-destructive Testing (ASNT) on the same subject. Not later than 11 months from the date of this Confirmatory Order, a draft of the proposed article or presentation will be provided to the NRC Region IV office (in advance of the submittal) for review, comment, and concurrence.

8. If Universal Testing applies for an NRC license, Universal Testing will request that the conditions of this Confirmatory Order be incorporated into its license.

9. The above provisions do not apply to any existing NRC licensee that may purchase Universal Testing, LLC. Universal Testing will promptly notify NRC Region IV if any existing NRC licensee agrees to purchase Universal Testing.

The Regional Administrator, NRC Region IV, may relax or rescind, in writing, any of the above conditions upon a showing by Universal Testing, LLC of good cause.

Any person adversely affected by this Confirmatory Order, other than Universal Testing, may request a hearing within 20 days of its issuance. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. Any request for a hearing shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, to the Regional Administrator, NRC Region IV, 611 Ryan Plaza Drive, Suite 400, Arlington, Texas 76011, and to Universal Testing, LLC, 393 South Main, Clearfield, Utah 84015. Because of the possible disruptions in delivery of mail to United States Government offices, it is requested that answers and requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. If such a person requests a hearing, that person shall set forth with particularity the manner in which his interest is

adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309 (d) and (f).

If a hearing is requested by a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Confirmatory Order should be sustained.

In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section IV above shall be final 20 days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section IV shall be final when the extension expires if a hearing request has not been received.

An answer or a request for hearing shall not stay the immediate effectiveness of this order.

Dated this 6th day of November, 2007.

For the Nuclear Regulatory Commission.

Leonard D. Wert,

Acting Regional Administrator.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-26]

Notice of Issuance of Addendum to the Supplement to the Environmental Assessment for the Diablo Canyon Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Issuance.

SUMMARY: Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) is issuing an Addendum to the supplement to the Environmental Assessment (EA) for the Diablo Canyon Independent Spent Fuel Storage Installation (ISFSI). NRC issued the EA and initial Finding of No Significant Impact (FONSI) for this action on October 24, 2003, and subsequently issued a license for the Diablo Canyon ISFSI to the Pacific Gas and Electric Company (PG&E), on March 22, 2004. The license authorizes PG&E to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials resulting from the operation of the Diablo Canyon Power Plant in an ISFSI at the site for a term of 20 years. On August 30, 2007, NRC

issued a supplement to the EA and final FONSI, in response to the June 2, 2006, decision by the United States Court of Appeals for the Ninth Circuit, *San Luis Obispo Mothers for Peace v. NRC*, 449 F.3d 1016 (9th Cir. 2006). The supplement to the EA addressed the environmental impacts from potential terrorist acts against the Diablo Canyon ISFSI. The Addendum lists six documents to be added to the list of references provided in the supplement to the EA.

FOR FURTHER INFORMATION CONTACT:

James R. Hall, Senior Project Manager, Licensing Branch, Division of Spent Fuel Storage and Transportation, Mail Stop EBB-3D-02M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 492-3319; e-mail: jrh@nrc.gov.

SUPPLEMENTARY INFORMATION: On December 21, 2001, PG&E submitted an application to NRC, requesting a site-specific license to build and operate an ISFSI, to be located on the site of the Diablo Canyon Power Plant, in San Luis Obispo County, California. The NRC staff issued an EA and FONSI for this action on October 24, 2003, in accordance with the National Environmental Policy Act, and in conformance with the applicable requirements of 10 CFR part 51.

On March 22, 2004, the NRC staff issued Materials License No. SNM-2511 to PG&E, pursuant to 10 CFR part 72, authorizing PG&E to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials resulting from the operation of the Diablo Canyon Power Plant in an ISFSI at the site for a term of 20 years. Subsequently, the San Luis Obispo Mothers for Peace and other parties filed suit in the United States Court of Appeals for the Ninth Circuit, asking that NRC be required to consider terrorist acts in its environmental review associated with this licensing action. In its decision of June 2, 2006, *San Luis Obispo Mothers for Peace v. NRC*, 449 F.3d 1016 (9th Cir. 2006), the Ninth Circuit held that NRC could not categorically refuse to consider the consequences of a terrorist attack under NEPA and remanded the case to NRC.

In response to the Ninth Circuit decision, the Commission directed the NRC staff to prepare a revised EA, addressing the likelihood of a terrorist attack at the Diablo Canyon ISFSI site and the potential consequences of such an attack. On May 29, 2007, the NRC staff issued a preliminary supplement to the EA and draft FONSI to address the environmental impacts from potential terrorist acts against the Diablo Canyon

ISFSI. On August 30, 2007, NRC issued the final supplement to the EA and final FONSI for this action. NRC summarized the comments received and responded to those comments in the final supplement to the EA, which also included a list of 14 references. Subsequent to the issuance of the final supplement, the staff determined that certain other documents concerning NRC's generic security assessments should also be included in the list of references. These 6 documents are listed in the Addendum.

Documents related to this action, including the May 29, 2007, preliminary supplement to the EA and draft FONSI; the August 30, 2007, EA supplement and final FONSI; the October 24, 2003, EA; and the Diablo Canyon ISFSI license and supporting documentation, are available electronically, at NRC's Electronic Reading Room, at: <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession number for the final EA supplement and final FONSI is ML072400511, and the accession number for the Addendum is ML073040434. For the preliminary supplement to the EA and draft FONSI, the accession number is ML071280256. The ADAMS accession number for the October 24, 2003, EA is ML032970337; and for the ISFSI license and related documents, the accession number is ML040780107. If you do not have access to ADAMS, or if there are problems in accessing the documents located in ADAMS, contact NRC's Public Document Room (PDR) Reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

These documents may also be viewed electronically on the public computers located at NRC's PDR, O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents, for a fee.

Dated at Rockville, Maryland, this 7th day of November, 2007.

For the Nuclear Regulatory Commission.

Robert A. Nelson,

Chief, Licensing Branch, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards.
