

for the Downeast LNG's and Downeast Pipeline's proposals. The Notice of Schedule for Environmental Review will also alert other agencies of the requirement to complete necessary reviews and authorizations within 90 days of the date of issuance of the Commission Staff's FEIS.

There are two ways to become involved in the Commission's review of this Project. First, any person wishing to obtain legal status by becoming a party to the proceeding for this project should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR §§ 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10) by the comment date, below. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project and/or associated pipeline. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 285.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-filing" link. The Commission strongly encourages electronic filings.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project and associated pipeline. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the

area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed pipeline and balances that against the non-environmental benefits to be provided by the project.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Kinder Morgan Interstate Gas Transmission LLC; Notice of Application

December 28, 2006.

Take notice that on December 20, 2006, Kinder Morgan Interstate Gas Transmission LLC (KMIGT), 370 Van Gordon Street, Lakewood, Colorado 80228-8304, filed in Docket No. CP07-48-000 an application pursuant to section 7(b) of the Natural Gas Act (NGA) for permission and approval to abandon the Clay Center Compressor Station located in Clay County, Nebraska, by sale, to the Clay County Historical Society of Clay County, Nebraska, all as more fully set forth in the application.

Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-

Any questions concerning this request may be directed to Skip George, Manager of Regulatory, Kinder Morgan Interstate Gas Transmission LLC, P.O. Box 281304, Lakewood, Colorado 80228-8304, or call (303) 914-4969.

Specifically, in 1956, KMIGT was authorized to install and operate, among other things, three 125-horsepower compressor units with auxiliary equipment at its Clay Center Compressor Station. The subject compressor units, a total of 375 installed horsepower, are the only units located at Clay Center. KMIGT states that the compression of natural gas at the Clay Center Compressor Station has not been utilized since August 1995. KMIGT states that the need for compression at the Clay Center has been supplanted with the natural gas KMIGT receives through an existing third-party interconnect with Trailblazer Pipeline Company located in Clay County. Therefore, KMIGT proposes to abandon the compressor station and to remove the station from natural gas service.

Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages filings of comments, protests and interventions electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-filing" link.
