Background and Purpose

The Lafourche Parish Council has requested that a regulation be placed on the SR 316 Blue Bayou Pontoon Bridge across the Gulf Intracoastal Waterway (GIWW), at mile 49.8, near Houma, LA. This bridge currently opens on signal as required by 33 CFR 117.5. Due to a high volume of vehicular traffic on SR 316, and the length of time to open and close the SR 316 Blue Bayou Pontoon Bridge,

a bridge opening can cause a substantial delay in transit time for school buses having to cross the bridge. To minimize the transit time of school children, Lafourche Parish requested closure periods around the scheduled school bus route times to allow the buses to cross the bridge without delay caused by a bridge opening. Currently, based on twelve months of bridge logs and a two week vehicular traffic count during the school year the 7 a.m. to 8:30 a.m. period has an average of 87 cars to 3.4 vessels, the 2 p.m. to 4 p.m. period has an average of 112 cars to 6.3 vessels, and the 4:30 p.m. to 5:30 p.m. period has an average of 140 cars to 3.2 vessels. Thus, a substantial delay can occur to the school buses that have to cross this bridge during their routes.

The users of the waterway consist mostly of towboats and barges, fishing vessels, and some recreational vessels. All waterway users transiting through this area require the bridge to open since the bridge is a pontoon bridge with no vertical clearance in the closed to navigation position and there is no feasible alternate route. During this test deviation, a count of the delayed vessels during the closure periods will be taken to ensure a future regulation will not have a significant impact on navigation. This test deviation has been coordinated with the main commercial waterway user group that has vessels transiting in this area, and currently there is no expectation of any significant impacts on navigation.

The deviation period will be from March 27, 2008 until April 28, 2008. During the deviation period, the draw shall open on signal; except that, the draw need not be opened from 7 a.m. to 8:30 a.m., from 2 p.m. to 4 p.m., and from 4:30 p.m. to 5:30 p.m., Monday through Friday except Federal holidays.

A Notice of Proposed Rulemaking, USCG–2008–0049, is being issued in conjunction with this Temporary Deviation to obtain public comments. The Notice of Proposed Rulemaking will be open for public comment for two months from March 12, 2008 until May 12, 2008. The Coast Guard will evaluate public comments from this Temporary Deviation and the above referenced Notice of Proposed Rulemaking to determine if a permanent special drawbridge operating regulation is warranted.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 21, 2008.

Bridge Administrator.
