The SAB is a Federal advisory committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Background: The SAB Integrated Nitrogen Committee is studying the need for integrated research and strategies to reduce reactive nitrogen in the environment. At the global scale, reactive nitrogen from human activities now exceeds that produced by natural terrestrial ecosystems. Reactive nitrogen both benefits and impacts the health and welfare of people and ecosystems. Scientific information suggests that reactive nitrogen is accumulating in the environment and that nitrogen cycling

through biogeochemical pathways has a variety of consequences. Research suggests that the management of reactive nitrogen should be viewed from a systems perspective and integrated across environmental media. Accordingly, linkages between reactive nitrogen induced environmental and human health effects need to be understood to optimize reactive nitrogen research and risk management strategies. Information on the Committee's previous meetings was published on January 17, 2007 (72 FR 1989), March 22, 2007 (72 FR 3492), August 14, 2007 (72 FR 4542) and November 20, 2007 (72 FR 65340) and is also available on the SAB Web site at: <http://www.epa.gov/sab>.

At the upcoming public meeting, the SAB Integrated Nitrogen Committee will: (1) Hear briefings on programs that affect how reactive nitrogen is managed; (2) develop materials needed to create a draft report; (3) plan additional work and writing, and (4) other committee business.

Availability of Meeting Materials: As they become available, the agenda and materials for this meeting will be posted on the SAB Web site at: <http://www.epa.gov/sab>.

Procedures for Providing Public Input: Interested members of the public may submit relevant written or oral information for the SAB to consider on the topics included in this advisory activity and/or the group conducting the activity. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public meeting will be limited to five minutes per speaker, with no more than one hour for all speakers. Interested parties should contact Ms. White, DFO, at the contact information provided above, by April 2, 2008, to be placed on the public speaker list for the April 9-11, 2008 meeting.

Written Statements: Written statements should be received in the SAB Staff Office by April 2, 2008, so that the information may be made available to the SAB for their consideration prior to this meeting. Written statements should be supplied to the DFO in electronic format via e-mail at the contact information provided above (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

To request accommodation of a disability, please contact Ms. White, preferably at least 10 days prior to the meeting, to give EPA

as much time as possible to process your request.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

- Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Cancel and/or Amend Registrations to Delete Uses

This notice announces receipt by EPA of a request from registrants Gharda Chemicals Limited and Gharda Polymers USA, Inc. (Gharda) to delete several uses from their napropamide product registrations. Napropamide is an herbicide used to control broad leaf weeds and grasses on various fruit and vegetable crops. In an e-mail dated February 1, 2008, Gharda requested EPA to terminate use on the following commodities: Apple, apricot, artichoke, avocado, cherry (fruit), fig, grapefruit, lemons, nectarine, olive, orange, peach, pear, pistachio, plum, pomegranate, prunes, tangerine, tangelo and walnut crops. The specific products for which Gharda is requesting these use deletions are identified in Table 1 of this notice. These product registration amendments will not terminate the last napropamide product registered for use in the United States.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from Gharda to amend its napropamide product registrations to terminate the following uses: Apple, apricot, artichoke, avocado, cherry (fruit), fig, grapefruit, lemons, nectarine, olive, orange, peach, pear, pistachio, plum, pomegranate, prunes, tangerine, tangelo and walnut crops. The affected

products and the registrants making the request are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In

addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The napropamide registrants have requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the proposed request.

Unless this request is withdrawn by one of the registrant within 30 days of publication of this notice, or unless the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued amending the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Napropamide

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before April 18, 2008. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

If the request for voluntary use termination is granted as discussed in this unit, the Agency intends to issue a cancellation order that will allow persons other than the registrant to continue to sell and/or use existing stocks of cancelled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the cancelled product.

The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the cancelled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described, the Agency will publish the cancellation order in the **Federal Register**.
