**DEPARTMENT OF LABOR****Employment and Training  
Administration**

[TA-W-62,232]

**Philips Lighting Company; Lamps  
Division, Danville, KY; Notice of  
Revised Determination on  
Reconsideration**

On January 2, 2008, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of Philips Lighting Company, Lamps Division, Danville, Kentucky (subject firm). The Department's Notice of Determination was published in the **Federal Register** on January 11, 2008 (73 FR 2068). The subject firm produces glass envelopes used in incandescent lamps and glass envelopes used in (Christmas) ornaments. Workers are not separately identifiable by product line.

The initial negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA) and

Alternative Trade Adjustment Assistance (ATAA) applicable to workers and former workers of the subject firm (issued on November 9, 2007) was based on the Department's findings that, during the relevant period, the subject firm did not shift glass envelope production to a foreign country, and neither the subject firm nor its customers imported articles like or directly competitive with those produced by the subject firm.

The request for administrative reconsideration filed by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (Union), dated December 20, 2007, alleges that "the production of the company's incandescent bulbs would be transferred to the company's Monterey, Mexico facility;" that the subject firm "manufactures and imports Compact Fluorescent Light Bulbs in Poland, which competes with incandescent bulbs;" that two major competitors "manufacture Compact Fluorescent light bulbs in China and import these products to the U.S.;" and that the subject firm's single largest customer of glass envelopes used in ornaments

ceased purchasing from the subject firm "because that company now imports all of their finished goods."

The Union's support documentation included the following: a copy of an August 10, 2007 letter from a company official to the Union (with a memorandum attached); a copy of a September 10, 2007, letter from a company official to the Union; an undated document titled "Partial Sampling of Legislation Impacting Incandescent Lamps;" a copy of an article titled "Is It Time to Ban the Bulb?" (TED Magazine, March 2007); a copy of an article titled "Lamps NA Briefing" (Philips, March 14, 2007); a copy of an e-mail exchange between a company official and the Union on December 19, 2007; and a copy of an e-mail exchange between a company official and the Union on December 20, 2007.

Under Section 223(a) of the Trade Act of 1974, as amended, TAA certification may be issued for primary workers if the following criteria are met:

Section (a)(2)(A)—

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or
