

the preliminary determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by exporters who account for a significant proportion of exports of the subject merchandise. Section 351.210(e)(2) of the Department's regulations requires that exporters requesting postponement of the final determination must also request an extension of the provisional measures referred to in section 733(d) of the Act from a four-month period until not more than six months. We received a request to postpone the final determination from Redstar on March 11, 2008. In addition, Redstar requested the extension of provisional measures from a four-month period to not longer than six months. Because this preliminary determination is affirmative, the request for postponement was made by the exporter accounting for a significant proportion of exports of the subject merchandise, and there is no compelling reason to deny the respondent's request, we have extended the deadline for issuance of the final determination until the 135th day after the date of publication of this preliminary determination in the **Federal Register** and have extended provisional measures to not longer than six months.

This determination is issued and published in accordance with sections 733(f) and 777(i)(1) of the Act.

Dated: March 19, 2008.

David M. Spooner,

Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XG57

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator), has made a preliminary determination that an Exempted Fishing Permit (EFP) application submitted by the University

of Maryland Eastern Shore (UMES) contains all of the required information and warrants further consideration. The Assistant Regional Administrator has made a preliminary determination that the activities authorized under this EFP would be consistent with the goals and objectives of the Northeast (NE) Multispecies and Monkfish Fishery Management Plans (FMPs). However, further review and consultation may be necessary before a final determination is made to issue an EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be issued that would allow one commercial fishing vessel to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. This EFP, which would enable researchers to study the effects of climate on the distribution and catch rates of monkfish, would grant exemptions from the NE multispecies regulations as follows: Gulf of Maine (GOM) Rolling Closure Area III and NE multispecies effort control measures.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before April 10, 2008.

ADDRESSES: You may submit written comments by any of the following methods:

- Email: DA8-055@noaa.gov. Include in the subject line "Comments on UMES Monkfish EFP."

- Mail: Patricia A. Kurkul, Regional Administrator, NMFS, NE Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on UMES monkfish EFP, DA8-055."

- Fax: (978) 281-9135.

FOR FURTHER INFORMATION CONTACT:

Emily Bryant, Fishery Management Specialist, 978-281-9244.

SUPPLEMENTARY INFORMATION: An application for an EFP was submitted on February 20, 2008, by Andrea K. Johnson, Ph.D., Research Assistant Professor at UMES, for a project funded under the New England and Mid-Atlantic Fishery Management Councils' Monkfish Research Set-Aside (RSA) Program. The primary goal of this study is to investigate the influence of temperature on monkfish distribution and abundance, as well as determine age and growth patterns, spawning frequency, feeding rates, and cannibalism. This information will

provide information on the biology of monkfish that could be used to enhance the management of this species. This is the first year this project has been funded under the Monkfish RSA Program.

The project is scheduled to be conducted for 1 year, from May 2008 through April 2009. Four fishing industry collaborators using 95 Monkfish days-at-sea (DAS) that will be awarded to the project through the monkfish RSA Program would collect a total of 640 monkfish from three size categories. Three monkfish gillnet vessels fishing in the Southern Fishery Management Area will collect monkfish as part of otherwise normal fishing activities, and do not require an EFP. One vessel fishing in the Northern Fishery Management Area would collect monkfish from a location inside Rolling Closure Area III. This activity would require an exemption from the restrictions of Rolling Closure Area III at 50 CFR 648.81(f) that will be in effect during May 2008. It is expected that this location would provide access to large monkfish and would avoid gear interactions between the research gillnet gear and the trawl gear. Due to the high economic value associated with the NE multispecies DAS, the applicant is also requesting exemption from the NE multispecies effort control measures at § 648.80(a)(3)(vi) in order to create sufficient incentive for a commercial vessel to participate in this experiment in the NFMA. This would exempt the vessel from the need to use a NE Multispecies DAS when fishing in the GOM for these research trips. The vessel would be using a large (12-inch) (30-cm) mesh, so the bycatch of NE multispecies is expected to be minimal.

The vessel would make up to 40 trips (25 DAS) using gillnets that are 12-inch (30-cm) stretch mesh with a 3.5-inch (8.9-cm) diameter gauge web that is 12 meshes deep. Each net is 300 ft (91 m) long, and 100 nets would be hauled every 5 days in the spring, summer, and fall, with an average soak time of 120 hours. Five fish per week would be donated to UMES between May-December 2008, and February-April 2009. The smallest samples would measure 17 inches (44 cm) in length. Additional catch, within applicable size and possession limits, would be sold to help offset the costs of the research. As a consequence of the exemption from the need to use a NE Multispecies DAS, the vessel would not keep any regulated NE multispecies. Since these trips would be using gillnets with very large mesh, the bycatch of regulated NE multispecies is expected to be minimal.

The applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 19, 2008.

Emily H. Menashes

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 25, 2008.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Education Desk Officer, Office of Management and Budget, 725 17th Street, NW., Room 10222, Washington, DC 20503. Commenters are encouraged to submit responses electronically by e-mail to

oir_submission@omb.eop.gov or via fax to (202) 395-6974. Commenters should include the following subject line in their response "Comment: [insert OMB number], [insert abbreviated collection name, e.g., "Upward Bound Evaluation"]". Persons submitting comments electronically should not submit paper copies.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere

with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: March 20, 2008.

Angela C. Arrington,

IC Clearance Official, Regulatory Information Management Services, Office of Management.

Federal Student Aid

Type of Review: Revision.

Title: Federal Direct Stafford/Ford Loan and Federal Direct Unsubsidized Stafford/Ford Loan Master Promissory Note.

Frequency: On occasion.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden:

Responses: 774,306.

Burden Hours: 387,153.

Abstract: The Federal Direct Stafford/Ford Loan (Direct Subsidized Loan) and Federal Direct Unsubsidized Stafford/Ford Loan (Direct Unsubsidized Loan) MPN serves as the means by which an individual agrees to repay a Direct Subsidized Loan and/or Direct Unsubsidized Loan.

Requests for copies of the information collection submission for OMB review may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3566. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202-4537. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202-401-0920. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal

Information Relay Service (FIRS) at 1-800-877-8339.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before May 27, 2008.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including
