

Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant

energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2.1, paragraph (32)(e) of the Instruction, from further environmental documentation.

Under figures 2–1, paragraph (32)(e), of the Instruction, an “Environmental Analysis Check List” and a “Categorical Exclusion Determination” are not required for this rule.

RIN 1625–AA09

Drawbridge Operation Regulations; Intracoastal Waterway (ICW); Atlantic City, NJ, Air Show Event

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Fifth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the US40–322 (Albany

Avenue) Bridge, at ICW mile 70.0, across Inside Thorofare at Atlantic City, NJ. This deviation is necessary to facilitate traffic control during the Atlantic City Air Show. This deviation will cause the bridge to be maintained in the closed-to-navigation position.

DATES: This deviation is effective from 10 a.m. to 5 p.m. on August 20, 2008.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG-2008-0184 and are available online at <http://www.regulations.gov>. They are also available for inspection or copying at two locations: the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays, and the Fifth Coast Guard District, Federal Building, 1st Floor, 431 Crawford Street, Portsmouth, VA 23704-5004 between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mrs. Sandra S. Elliott, Bridge Management Specialist, Fifth Coast Guard District, at (757) 398-6557.

SUPPLEMENTARY INFORMATION: To facilitate traffic control for the Atlantic City Air Show, the US40-322 (Albany Avenue) Bridge will be maintained in the closed-to-navigation position from 10 a.m. to 5 p.m. on August 20, 2008.

The Greater Atlantic City Chamber of Commerce on behalf of the bridge owner, the New Jersey Department of Transportation (NJDOT), has requested a temporary deviation for the current operating regulation set out in 33 CFR 117.733 (f) to close the US40-322 (Albany Avenue) Bridge to navigation for the sole purpose of traffic control before, during and after the Atlantic City Air Show display, scheduled for Wednesday, August 20, 2008, from 10 a.m. to 5 p.m.

The US40-322 (Albany Avenue Bridge) at ICW mile 70.0, across Inside Thorofare at Atlantic City, NJ, a lift drawbridge, has a vertical clearance in the closed position to vessels of 10 feet, above mean high water. The current operating regulation set out in 33 CFR 117.733 (f) requires the draw shall open on signal except that: Year-round from 11 p.m. to 7 a.m. and from November 1 through March 31 from 3 p.m. to 11 p.m., the draw need only open if at least four hours notice is given; From June 1 through September 30: from 9 a.m. to 4 p.m. and from 6 p.m. to 9 p.m., the draw need only open on the hour and half

hour; and from 4 p.m. to 6 p.m., the draw need not open.

During the event, vessel operators with mast height lower than 10 feet will continue to be able to transit through the drawbridge. The Atlantic Ocean is an alternate route for vessels with a mast height greater than 10 feet.

The Coast Guard reviewed the bridge logs provided by NJDOT for August 2007 which revealed that vessel traffic is primarily recreational and the number of bridge openings on weekdays averages about three openings per day. In addition, qualified personnel will be on-site to open the drawbridge for vessels in the event of an emergency.

The Coast Guard will inform the users of the waterway via maritime advisories of the closure period for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 19, 2008.

Chief, Bridge Administration Branch, Fifth Coast Guard District.

[Docket No. USCG-2008-0174]

Drawbridge Operation Regulations; Sacramento River, Rio Vista, CA, Drawbridge Maintenance

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eleventh Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Rio Vista Drawbridge across the Sacramento River, mile 12.8, at Rio Vista, CA. The deviation is necessary to allow the bridge owner, the California Department of Transportation (Caltrans), to conduct required maintenance of the drawspan. This deviation allows for a 4-hour notice for openings during nighttime.

DATES: This deviation is effective between 9 p.m. and 5 a.m., from March 24, 2008 through April 24, 2008.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG-2008-0174 and are available online at <http://www.regulations.gov>. They are also available for inspection or copying two locations: The Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays, and Commander (dpw), Eleventh Coast Guard District, Building 50-2, Coast Guard Island, Alameda, CA 94501-5100, between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

David H. Sulouff, Chief, Bridge Section, Eleventh Coast Guard District, telephone (510) 437-3516.

SUPPLEMENTARY INFORMATION: Caltrans requested a temporary change to the operation of the Rio Vista Drawbridge, mile 12.8, Sacramento River, at Rio Vista, CA. The Rio Vista Drawbridge navigation span provides a vertical clearance of 17 feet above Mean High Water in the closed-to-navigation position. The draw opens on signal as required by 33 CFR 117.5. Navigation on the waterway consists of both commercial and recreational vessels.

The 4-hour notice for openings during the maintenance period, between 9 p.m. and 5 a.m., from March 24, 2008 through April 24, 2008, will allow Caltrans to clear the drawspan of maintenance equipment so as not to delay approaching vessels. This temporary deviation has been coordinated with all affected waterway users. No objections to the proposed temporary deviation were raised.

Vessels that can transit the bridge, while in the closed-to-navigation position, may continue to do so at any time.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 20, 2008.
