Information Collection Request

Title: Official Logbook.

OMB Control Number: 1625-0018.

Summary: The Official Logbook contains information on the vessel's crew, drills, and operations conducted during the voyage. Official Logbook entries identify all particulars of the nature of the voyage, including the name of the ship, official number, port of registry, tonnage, names, merchant mariner document numbers of the master and crew, and class of ship. In addition, it also contains entries for the vessel's drafts, maintenance of

watertight integrity of the ship, drills/inspections, crew list with report of character, a summary of laws applicable to logbooks, and miscellaneous entries.

Need: Sections 11301 through 11303 of Title 46 of the United States Code (U.S.C.) require most merchant vessels to have and maintain an Official Logbook, or face penalties. See Coast Guard regulations 46 CFR 35.07-5, 78.37-3, 97.35-3, 109.431, 131.610, 196.35-3 and 197.480 as examples that reflect the requirements for various types of vessels or facilities. The Official Logbook contains information about the vessel, voyage, and crew. Lack of these particulars would make it difficult for a seaman to verify vessel employment and wages, and for the Coast Guard to verify compliance with laws and regulations concerning vessel operations and safety procedures. The Official Logbook serves as an official record of recordable events transpiring at sea such as births, deaths, marriages, disciplinary actions, etc. Absent the Official Log, there would no official civil record of these events. The courts accept log entries as proof that the logged event occurred. If this information were not collected, the Coast Guard's Commercial Vessel Safety Program would suffer, as there would be no official record of U.S. merchant vessel voyages. Similarly, those seeking to prove that a logable event occurred would not have any record available.

Forms: Official Logbook, CG-706B.

Respondents: Federal agency maritime casualty investigators, Coast Guard inspectors, and shipping companies.

Frequency: On occasion.

Burden Estimate: The estimated burden remains 1,750 hours a year.

Dated: March 28, 2008.

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
