

Selected NME Countries, revised in January 2007, available at <http://ia.ita.doc.gov/wages/index.html>. Because this regression-based wage rate does not separate the labor rates into different skill levels or types of labor, we have applied the same wage rate to all skill levels and types of labor reported by the respondent. *See also* Surrogate Value Memorandum.

If the NME wage rates are updated by the Department prior to issuance of the final determination, we will use the updated wage rate in the final results.

To value electricity, we used data from the International Energy Agency *Key World Energy Statistics* (2003 edition). Because the value was not contemporaneous with the POR, we adjusted the rate for inflation.

The Department valued water using data from the Maharashtra Industrial Development Corporation (www.midcindia.org) because it includes a wide range of industrial water tariffs. This source provides 386 industrial water rates within the Maharashtra province from June 2003: 193 for the “inside industrial areas” usage category and 193 for the “outside industrial areas” usage category. Because the value was not contemporaneous with the POR, we adjusted the rate for inflation.

To value factory overhead, selling, general, and administrative expenses (“SG&A”), and profit, we used the audited financial statements for the fiscal year ending March 31, 2006, from the following producer: Godrej & Boyce Manufacturing Company, Ltd., an Indian producer of comparable merchandise. From this information, we were able to determine factory overhead as a percentage of the total raw materials, labor and energy (“ML&E”) costs; SG&A as a percentage of ML&E plus overhead (*i.e.*, cost of manufacture); and the profit rate as a percentage of the cost of manufacture plus SG&A. For further discussion, *see* Factor Valuation Memorandum.

Preliminary Results of Review

We preliminarily determine that the following margin exists during the period December 1, 2006, through May 31, 2007:

HAND TRUCKS AND PARTS THEREOF FROM THE PRC

Assessment Rates

Pursuant to 19 CFR 351.212(b), the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. The Department will issue appropriate assessment instructions directly to CBP 15 days after publication of the final results of this review. We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review if any assessment rate calculated in the final results of this review is above *de minimis*. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Cash Deposit

On August 17, 2006, the Pension Protection Act of 2006 (“H.R. 4”) was signed into law. Section 1632 of H.R. 4 temporarily suspends the authority of the Department to instruct CBP to collect a bond or other security in lieu of a cash deposit in new shipper reviews. Therefore, the posting of a bond under section 751(a)(B)(iii) of the

Act in lieu of a cash deposit is not available in this case.

The following cash-deposit requirements will be effective upon publication of the final results of this new shipper review for all shipments of subject merchandise from New-Tec entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) for subject merchandise manufactured and exported by New-Tec, the cash-deposit rate will be the rate determined in the final results of review (except if that rate is *de minimis*, *i.e.*, less than 0.50 percent, no cash deposit will be required); (2) for subject merchandise exported by New-Tec but not manufactured by New-Tec, the cash deposit rate will continue to be the PRC-wide rate (*i.e.*, 383.60 percent); and (3) for subject merchandise manufactured by New-Tec, but not exported by New-Tec, the cash deposit rate will be the cash deposit rate will be the rate applicable to the exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This new shipper review and this notice are published in accordance with section 777(i)(1) of the Act.

Dated: April 21, 2008.

David M. Spooner,

Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The National Marine Fisheries Service (NMFS) requires longline vessel operators to notify NMFS in the event an endangered short-tailed albatross is hooked or entangled during fishing operations. Following the retrieval of the seabird from the ocean, as required by Federal regulations, the vessel captain must record the condition of the injured short-tailed albatross on a recovery data form. The information will be used by a veterinarian in providing advice to the captain caring for the short-tailed albatross. If the albatross is dead, the captain must attach an identification tag to the carcass to assist the U.S. Fish and Wildlife Service (USFWS) biologists in follow-up studies on the specimen. This collection is one of the terms and conditions contained in the biological opinion issued by USFWS, and is intended to maximize the probability of the long-term survival of short-tailed albatross accidentally taken by longline gear.
