AGENCY: Fish and Wildlife Service, Interior.

Background

Under a Safe Harbor Agreement, participating landowners voluntarily undertake management activities on their property to enhance, restore, or maintain habitat benefiting species listed under the Act. Safe Harbor Agreements, and the subsequent permits that are issued pursuant to section 10(a)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*), encourage private and other non-Federal property owners to implement conservation efforts for listed species by assuring property owners that they will not be subjected to increased land use restrictions as a result of efforts to attract or increase the numbers or distribution of a listed species on their property. Application requirements and issuance criteria for permits through Safe Harbor Agreements are found in 50 CFR 17.22(c).

We have worked with the Applicant to develop this proposed Programmatic Agreement for the conservation of the flycatcher in Washington, Iron, Garfield, Kane, Emery, Garfield, Wayne, and San Juan Counties, Utah. Within the 25,661,861 hectares (63,411,840 acres) of land within the above-named counties, landowners will be able to enroll non-Federal properties on which habitat for flycatcher will be restored, enhanced, and managed pursuant to a written agreement between the Applicant and a property owner. We have made a preliminary determination that the Agreement qualifies as a low-effect plan.

This Agreement provides for the creation of a Program in which private landowners (Program Participants) enter into written cooperative agreements with the Applicant pursuant to the terms of the Agreement, to restore, enhance, and maintain riparian habitat in ways beneficial to the flycatcher. Such cooperative agreements will be for a term of at least 15 years. The proposed duration of the Agreement and permit is 50 years. The Agreement fully describes the proposed management activities to be undertaken by Program Participants and the conservation benefits expected to be gained for the flycatcher.

Upon approval of this Agreement, and consistent with the Service's Safe Harbor Policy published in the **Federal Register** on June 17, 1999 (64 FR 32717), the Service would issue a permit to the applicant authorizing take of flycatcher by Program Participants incidental to the implementation of the management
