Description: The Critical Infrastructure/Key Resources Private Sector Clearance Program (CIKR PSCP) is designed to provide private sector individuals clearances so that they can be partners with DHS. These partners are subject matter experts within specific industries and sectors. DHS has created this program to facilitate granting clearances to appropriate individuals. The CIKR PSCP requires individuals to complete a clearance request form that initiates the clearance process. Individuals are selected and then invited to become partners with DHS for a specific project or task. DHS Sector Specialists or Protective Security Advisors e-mail the form to the individual who e-mails back the completed form. The data from these forms make up the Master Roster. The Name, Social Security Number, Date of Birth and Place of Birth are entered into e-QIP—Office of Personnel Management's secure portal for investigation processing. Once the data is entered in e-QIP by the DHS Office of Security, Personnel Security Division, then the applicant can complete the rest of the e-QIP security questionnaire. The CIKR PSCP Master Roster contains all the information found on the clearance request form in addition to their clearance info (date granted, level, date

non-disclosure agreements signed.) The Administrator of the Master Roster maintains the information so as to track clearance processing and investigation information (date of investigation) and to have the most current contact information for the participants from each sector.

Dated: May 9, 2008.

[Docket No. DHS-2007-0017]

Privacy Act; Office of Intelligence and Analysis Enterprise Records System

AGENCY: Privacy Office, DHS.

ACTION: Notice of Privacy Act system of records notice.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security gives notice that it proposes to add a new system of records to its inventory of record systems, namely the Office of Intelligence & Analysis Enterprise Records System (ERS). Some of the records that were previously maintained in the Homeland Security Operations Center Database (DHS/IAIP-001), the system of records notice for which was last published in full text on April 18, 2005 (70 FR 20156), will now be part of the ERS. This notice does not rescind, revoke, or supersede the HSOC system of records notice insofar as other components of DHS maintain records within that system of records, under their respective authorities.

DATES: The new system of records will be effective June 16, 2008.

SUPPLEMENTARY INFORMATION:

I. Background

The mission of DHS under the Homeland Security Act of 2002 is to prevent terrorist attacks; reduce the vulnerability of the United States to terrorism; minimize the damage and assist in the recovery from terrorist attacks that may occur within the United States; carry out the functions of the legacy agencies and entities transferred to the Department, including by acting as a focal point regarding natural and manmade crises and emergency planning; ensure that the functions of the agencies and subdivisions within DHS not directly related to securing the homeland are not diminished or neglected; ensure that the civil rights and civil liberties of persons within, and the overall economic security of, the United States are not diminished by efforts, activities, and programs aimed at securing the homeland; and monitor the connections between illegal drug trafficking and terrorism, coordinate efforts to sever such connections, and contribute to the effort to interdict illegal drug trafficking.

Recognizing the need for intelligence support in all of the critical mission areas identified in the President's National Strategy for Homeland Security and in direct support both of the DHS mission and all elements of the Department responsible for executing the Secretary's authorities in fulfilling it, the Under Secretary for Intelligence & Analysis, as head of the DHS Office of Intelligence and Analysis (I&A), is responsible for carrying out the responsibilities of the Secretary relating to intelligence and information analysis across the Department and, as Chief Intelligence Officer of the Department, oversees the functional integration of the Department's intelligence activities, including those occurring outside of I&A. Through successive and specific

delegations issued in 2006, the Under Secretary for I&A was assigned the authority and responsibility: (1) To perform the functions specified in Title II of the Homeland Security Act that relate to the Office of Information Analysis (since renamed I&A); (2) to exercise oversight and responsibility for the functions and duties necessary to lead and manage the integration of Departmental intelligence activities; and (3) to exercise the authority under section 202 of the Homeland Security Act to ensure the timely and efficient access to all information necessary to discharge the responsibilities under section 201 of the Homeland Security Act. Taken together, the Under Secretary for I&A exercises, through I&A, lead or, in some cases, shared leadership responsibility under the Homeland Security Act for the following:

A. To access, receive, and analyze law enforcement, intelligence, and other information from federal, state, and local government agencies (including law enforcement agencies), and private sector entities, and to integrate such information, in support of the mission responsibilities of the Department and the functions of the National Counterterrorism Center established under section 119 of the National Security Act of 1947 (50 U.S.C. 404o), in order to: (A) Identify and assess the nature and scope of terrorist threats to the homeland; (B) detect and identify threats of terrorism against the United States; and (C) understand such threats in light of actual and potential vulnerabilities;

B. To request additional information from other agencies of the federal government, state and local government agencies, and the private sector relating to threats of terrorism in the United States, or relating to other areas of responsibility assigned by the Secretary;

C. To establish Department-wide procedures for the review and analysis of information provided by State, local, and tribal governments and the private sector, integrate such information into the information gathered by the Department and other departments and agencies of the Federal Government, as appropriate, and make available such information, as appropriate, within the Department and to other departments and agencies of the Federal Government;

D. To ensure the timely and efficient access by the Secretary of Homeland Security and the Department to all information from other agencies of the federal government, including reports, assessments, analyses, and unevaluated intelligence related to threats of
