

The proposed NDA boundary includes the municipal waters of Provincetown, Truro, Wellfleet, Eastham, Orleans, Brewster, Dennis, Yarmouth, Barnstable, Sandwich and Bourne and extends to the boundary between state and federal waters. Cape Cod Bay is bordered on three sides by the geographic landforms of Cape Cod and the South Shore of Massachusetts.

There are marinas, yacht clubs and public landings/piers in the proposed area with a combination of mooring fields and dock space for the recreational and commercial vessels. Massachusetts has certified that there are seven pumpout facilities within the proposed area available to the boating public and two additional facilities pending. The majority of facilities are connected to a holding tank, which is emptied by a licensed septic hauler that transports the waste to an approved

disposal facility. A list of the facilities, phone numbers, locations, and hours of operation is provided at the end of this petition.

Massachusetts has provided documentation indicating that the total vessel population is estimated to be 3250 in the proposed area. It is estimated that 2010 of the total vessel population may have a Marine Sanitation Device (MSD) of some type.

In 1974, the Massachusetts Oceans Sanctuaries Act recognized Cape Cod Bay as an important ocean sanctuary. In 1990, EPA designated Cape Cod Bay as an "Estuary of National Significance" under its National Estuary Program as part of the Mass Bays Program. Four state-recognized Areas of Critical Environmental Concern are within Cape Cod Bay. Cape Cod Bay also contains federally designated Critical Habit for rare and endangered species of marine

mammals, including the endangered Northern Atlantic Right whale and Humpback whale. In addition, Cape Cod Bay contains critical habitat (e.g., eelgrass beds, mud flats, estuaries, etc.) for other rare, endangered, and/or economically important species of coastal and pelagic birds (Roseate Tern and Piping Plover), fish (winter flounder, haddock, cod, striped bass, herring, lobster, crabs, etc.), and turtles (Hawksbill sea turtle, Kemp's Ridley sea turtle, Leatherback sea turtle, Green turtle, Loggerhead sea turtle and Diamondback Terrapin). Cape Cod Bay has over 390 public beaches and there are an estimated 410,000 acres of shellfish growing areas between Provincetown and the Back River in Hull. All of these important natural resources would benefit from a No Discharge Area.

Mr. Fred Butterfield, CASAC Designated Federal Officer (DFO). Mr. Butterfield may be contacted at the EPA Science Advisory Board (1400F), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; or via telephone/voice mail: 202-343-9994; fax: 202-233-0643; or e-mail at: butterfield.fred@epa.gov. General information concerning the CASAC can be found on the EPA Web site at: <http://www.epa.gov/casac>.

SUPPLEMENTARY INFORMATION:

Background: The CASAC, which is comprised of seven members appointed by the EPA Administrator, was established under section 109(d)(2) of the Clean Air Act (CAA or Act) (42 U.S.C. 7409) as an independent scientific advisory committee. The CASAC provides advice, information and recommendations on the scientific and technical aspects of issues related to air quality criteria and NAAQS under

sections 108 and 109 of the Act. The CASAC is chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The CASAC Lead Review Panel consists of the seven members of the chartered CASAC supplemented by subject-matter-experts. The CASAC Lead Review Panel provides advice and recommendations to EPA concerning lead in ambient air. The CASAC Panel complies with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

Section 109(d)(1) of the CAA requires that the Agency periodically review and revise, as appropriate, the air quality criteria and the NAAQS for the "criteria" air pollutants, including lead. In December 2007, the CASAC Panel met to review the Agency's Advance Notice of Proposed Rulemaking (ANPR) on the NAAQS for Lead. In addition, the Panel also reviewed EPA's Final Lead Staff Paper and the Final Lead Risk Assessment. The CASAC's letter to the Administrator from that meeting (EPA-CASAC-08-007, dated January 22, 2008) is posted on the CASAC's Web site at: <http://www.epa.gov/casac>. On May 1, 2008, the Agency released the proposed rule for the revision of the NAAQS for Lead. The proposed rule and supplemental materials can be accessed from the "Regulatory Actions" page for the Lead NAAQS found on EPA's Web site at URL: <http://epa.gov/air/lead/actions.html>. This proposed rule is scheduled for publication in the **Federal Register** on or about May 21, 2008.

The purpose of the public teleconference meeting on June 9, 2008 is for the CASAC Panel to provide comments concerning the proposed rule for the revision of the NAAQS for lead. The purpose of the public teleconference meeting on July 8, 2008 is for the CASAC Panel to review the draft letter to the EPA Administrator and for the chartered CASAC to approve the letter.

Technical Contact: Any questions concerning the Agency's proposed rule for the revision of the NAAQS for lead should be directed to Dr. Deirdre Murphy, Health and Environmental Impacts Division, EPA's Office of Air Quality Planning and Standards (OAQPS), at phone: 919-541-0729, or e-mail: murphy.deirdre@epa.gov.

Availability of Meeting Materials: The draft agendas and other materials for these public teleconference meetings of the CASAC Panel will be posted on the CASAC's Web site at: <http://www.epa.gov/casac> prior to the meetings.
