Authority

Section 102 of the Maritime Transportation Security Act (MTSA) of 2002 (Pub. L. 107-295) added section 70112 to Title 46 of the U.S. Code, and authorized the Secretary of the Department in which the Coast Guard is operating to establish Area Maritime Security Advisory Committees for any port area of the United States. (See 33 U.S.C. 1226; 46 U.S.C.; 33 CFR 1.05-1, 6.01; Department of Homeland Security Delegation No. 0170.1). The MTSA includes a provision exempting these AMSCs from the Federal Advisory Committee Act (FACA), Public Law 92-436, 86 Stat. 470 (5 U.S.C. App. 2). The AMSCs shall assist the Captain of the Port in the development, review, update, and exercising of the AMS Plan for their area of responsibility. Such matters may include, but are not limited to: identifying critical port infrastructure and operations; identifying risks (threats, vulnerabilities, and consequences); determining mitigation strategies and implementation methods; developing strategies to facilitate the recovery of the MTS after a Transportation Security Incident; developing and describing the process to continually evaluate overall port security by considering consequences and vulnerabilities, how they may change over time, and what additional mitigation strategies can be applied; and providing advice to, and assisting the Captain of the Port in developing and maintaining the Area Maritime Security Plan.

Background and Purpose

Section 701 of the Coast Guard and Maritime Transportation Act of 2004 (CGMTA), Pub. L. 108-293, amended section 311(j)(5) of the Federal Water

Pollution Control Act (FWPCA), 33 U.S.C. 1321(j)(5), and required owners and operators of nontank vessels to prepare and submit by August 9, 2005, plans for responding: (1) To a worst case discharge; and (2) to a substantial threat of such a discharge of oil from their vessels. A nontank vessel is defined as a self-propelled vessel of 400 gross tons or greater, which carries oil as fuel for main propulsion and operates on the navigable waters of the United States. Vessels that carry oil as primary or secondary cargo are currently regulated under 33 CFR part 155, subpart D, and are not subject to this notice. The 2004 Act also requires promulgation of regulations that prescribe the content and submission of the nontank vessel response plans.

The Coast Guard and Maritime Transportation Act of 2006 (Pub. L. 109-241) clarified that nontank vessel response plans are required for vessels of 400 gross tons or greater as measured under the International Convention on Tonnage Measurement of Ships, 1969, measurement system in 46 U.S.C. 14302, or the regulatory measurement system of 46 U.S.C. 14502 for vessels not measured under 46 U.S.C. 14302.

Since the passage of the 2004 Act, the Coast Guard has published Navigation and Vessel Inspection Circular (NVIC) 01-05 CH 1 and a Federal Notice on June 24, 2005 (70 FR 36649) providing guidance with respect to enforcement of these requirements. NVIC 01-05 CH 1 also provides guidance to vessel owners and operators regarding the development of NTVRPs to meet the intent of the 2004 Act for the immediate submission of NTVRPs and for the Coast Guard's issuance of 2-year interim operating authorizations pending issuance of a final rule.

Considering that some nontank vessels still have not submitted a NTVRP to the Coast Guard and that the risks associated with oil spills from large nontank vessels similar to the November 7, 2007, COSCO BUSAN oil spill in San Francisco Bay, the Coast Guard will, effective August 22, 2008, begin actively enforcing the 2004 Act by screening all nontank vessels prior to their port arrival for the submission of NTVRPs. In an effort to devote our enforcement resources to those nontank vessels that pose the greatest risk in the event of a worst case discharge, this interim enforcement policy will focus on those nontank vessels of 1,600 gross tons or greater. For such vessels without a properly submitted plan, operational controls will be placed on the vessels by the Captains of the Port (COTP) under the authority of regulations in 33 CFR
