

e-mail address. All comments submitted under either eFiling or the Quick Comment option are placed in the public record for the specified docket or project number(s).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding known as an "intervenor." Intervenor play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must send one electronic copy (using the Commission's eFiling system) or 14 paper copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor, you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix B).⁴ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Site Visit

On July 15, 2008, the Office of Energy Projects' (OEP) staff will conduct a pre-certification site visit of the proposed J-2 Loop Project. Representatives of Algonquin and Massachusetts Energy Facilities Siting Board will accompany the OEP staff. We will tour the proposed project area by automobile and on foot viewing Algonquin's proposed pipeline route, route variations, and aboveground facilities that are being considered for the proposed project.

All interested parties may attend the site visit. Those planning to attend must provide their own transportation. If you are interested in attending the site visit, please meet us at 4:00 p.m. in the parking lot of the Somerville High School, 81 Highland Avenue, Somerville, MA.

For additional information, please contact the Commission's Office of

External Affairs at 1-866-208-FERC (3372).

Environmental Mailing List

An effort is being made to send this notice to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project. This includes all landowners who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within distances defined in the Commission's regulations of certain aboveground facilities. We encourage government representatives to notify their constituents of this proposed project and encourage them to comment on their areas of concern. If you do not return the form included as Appendix C, you will be removed from the Commission's environmental mailing list.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs at 1-866-208-FERC (3372) or on the FERC Internet Web site (<http://www.ferc.gov>). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP08-256), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at 1-866-208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission such as orders, notices, and rule makings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

Finally, any public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Kimberly D. Bose,
Secretary.

Federal Energy Regulatory Commission

[Docket Nos. ER07-1289-002; ER07-1289-003; ER07-1289-004; ER07-1289-005; Docket No. EL08-56-000 (consolidated)]

ISO New England Inc.; New Brunswick Power Transmission Corporation, New Brunswick System Operator, and Northern Maine Independent System Administrator v. ISO New England Inc.; Notice of Institution of Proceeding and Refund Effective Date

July 3, 2008.

On July 2, 2008, the Commission issued an order that instituted a proceeding in the above-referenced proceeding, pursuant to section 206 of the Federal Power Act (FPA) 16 U.S.C. 824e, concerning issues stemming from the Maine Electric Power Company Roll-in Proposal (the MEPCO Roll-in Proposal) in *ISO New England Inc.*, 124 FERC ¶ 61,013 (2008).

The refund effective date in the above-docketed proceeding, established pursuant to section 206(b) of the FPA, will be the date of publication of this notice in the **Federal Register**.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No.: 12548-002]

Hydrodynamics, Inc.; Notice of Paper Scoping and Soliciting Scoping Comments and ERRATA to Tendering Notice

July 3, 2008.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application*: Minor unconstructed project.

b. *Project No.*: 12548-002.

c. *Date filed*: April 1, 2008.

d. *Applicant*: Hydrodynamics, Inc.

e. *Name of Project*: Greenfield.

f. *Location*: On the Greenfields Main Canal, part of the Bureau of Reclamation's Sun River Irrigation Project, in Teton County, Montana, near Fairfield, Montana.

g. *Filed Pursuant to*: Federal Power Act 16 U.S.C. 791(a)-825(r).

⁴ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

h. *Applicant Contact*: Roger Kirk, Hydrodynamics, Inc., P.O. Box 1136, Bozeman, MT 59771, (406) 587-5086.
 i. *FERC Contact*: Dianne Rodman, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426; telephone (202) 502-6077 or by e-mail at dianne.rodman@ferc.gov.
 j. *Deadline for filing scoping comments*: August 4, 2008.

All documents (original and eight copies) should be filed with: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Scoping comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

k. This application is not ready for environmental analysis at this time.

l. The proposed Greenfield Project would be built at the Greenfields Main Canal's Greenfield drop structure. The applicant proposes to construct: (1) An inflatable weir spanning the width of the canal; (2) an intake structure with trash rack and radial gate or stop-log shut off; (3) a buried, 84-inch-diameter, 650-foot-long steel or polyethylene penstock; (4) a powerhouse containing one Francis or propeller (Reaction) turbine and one generator with a rated output of 600 kilowatts; (5) a tailrace about 7 feet long, returning flows to the canal; (6) a switchyard; and (7) a 0.05-mile-long, 12-kilovolt transmission line interconnecting with an existing powerline. Average annual generation would be 1.5 gigawatt hours.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659. A copy is also available

for inspection and reproduction at the address in item h above.

You may also register online at <http://www.ferc.gov/docs-filings/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

n. *Scoping Process*: The Commission intends to prepare an Environmental Assessment (EA) on the project in accordance with the National Environmental Policy Act of 1969, as amended.¹ The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Commission staff does not propose to conduct any on-site scoping meetings at this time. Instead, we will solicit comments, recommendations, information, and alternatives in the Scoping Document (SD).

Copies of the SD outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list. Copies of the SD may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link (see item m above).

o. The tendering notice issued April 14, 2008, incorrectly stated that the application for the Greenfield Project was filed on March 31, 2008. The correct filing date for the Greenfield Project application is April 1, 2008.

Kimberly D. Bose,

Secretary.
