The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: Free Clinic FTCA Deeming Application (OMB No. 0915–0293) Revision

Congress legislated FTCA medical malpractice protection for free clinic volunteer health professionals through Section 194 of the Health Insurance Portability and Accountability Act (HIPAA) amending Section 224 of the Public Health Service Act. Individuals eligible to participate in this program are health care practitioners volunteering at free clinics who meet

specific eligibility requirements. If an individual meets all the requirements of this program, they can be “deemed” to be a Federal employee. This deemed status is specifically to provide immunity from medical malpractice lawsuits as a result of the performance of medical, dental, or related activities within the scope of the volunteer's work at the free clinic.

The sponsoring free clinic entity must submit an application to the Health Resources and Services Administration (HRSA). This application will require information about the sponsoring free clinic's credentialing system, risk management practices, and quality assurance system in order to ensure the Government is not exposed to undue liability resulting from the medical malpractice coverage of non-qualified health care professionals as well as the number of annual FTCA patient visits. Attached to the application will be a listing of specific health care providers for whom the sponsoring free clinic is requesting deemed status.

The estimated annual burden is as follows:
