Examples of erroneous inclusions are: Persons or housing units enumerated in the census that should not have been enumerated at all, persons or housing units enumerated in an incorrect location, and persons or housing units enumerated more than once (duplicates).

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Public Law 97-446, as amended by Public Law 103-465, Public Law 106-36, and Public Law 108-429, requires the Departments of Commerce and the Interior (Departments) to administer the

distribution of watch duty-exemptions and watch and jewelry duty-refunds to program producers in the U.S. insular possessions and the Northern Mariana Islands. The primary consideration in collecting information is the enforcement of the law and the information gathered is limited to that necessary to prevent abuse of the program and to permit a fair and equitable distribution of its benefits. The ITA-334P is the principal program form used for recording operational data on the basis of which program entitlements are distributed among the producers. This form also serves as the producer's application to the Departments for these entitlements and is completed biannually by watch and jewelry assemblers and manufacturers. A proposed modification to form ITA-334P is planned, by dividing it into four forms, so that there is an annual and mid-year application for watch producers and an annual and mid-year application for jewelry producers. This would not involve any increase in the amount of information collected.

## II. Method of Collection

The form is sent to each watch and jewelry producer biannually. The form is also available at <http://ita-web.ita.doc.gov/doc/eFormsPub.nsf> and may be completed online and printed, and submitted via mail.
