ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA 95) (44 U.S.C. 3506(c)(2)(A)), the Department of Labor (the Department) conducts a preclearance consultation program so that the general public and other federal agencies can comment on proposed and continuing collections of information. This program helps to ensure that the data the Department gathers arrive in the desired format, that the reporting burden on the public (time and financial resources) is minimized, that the public understands the collection instruments, and that the Department can accurately assess the impact of collection requirements on respondents.

By this notice, the Department is soliciting comments on the information collection provisions of regulations pertaining to section 104(a)(6) of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The statute and the regulatory provisions codified at 29 CFR 2520.104a-8 require the administrator of an employee benefit plan subject to Part 1 of Title I of ERISA to furnish the Secretary of Labor with certain documents relating to the plan upon request. A copy of the information collection request (ICR) can be obtained by contacting the office shown in the **ADDRESSES** section of this notice. ICRs submitted to OMB also are available at <http://www.RegInfo.gov>.

DATES: Written comments must be submitted to the office shown in the addresses section on or before October 14, 2008.

These are not toll-free numbers.

SUPPLEMENTARY INFORMATION:

I. Background

The Department issued a final implementing regulation under this provision on January 7, 2002 (67 FR 777), which is codified at 29 CFR 2520.104a-8. The ICR relating to the regulation was approved following publication of a notice of proposed rulemaking on August 5, 1999 (64 FR 42797). The ICR is scheduled to expire on December 31, 2008.

II. Desired Focus of Comments

The Department is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected;
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
