The new title of this ICR is "30 CFR Parts 202, 204, and 206, Federal Oil and Gas Valuation." In this extension, we are consolidating the following ICRs, which allows programwide review of Federal oil and gas leases:

- 1010-0136, previously titled "30 CFR Part 202—Royalties, Subpart C—Federal and Indian Oil and Subpart D—Federal Gas; and Part 206—Product Valuation, Subpart C—Federal Oil and Subpart D—Federal Gas;" and
- 1010-0155, previously titled "30 CFR Part 204—Alternatives for Marginal Properties, Subpart C—Accounting and Auditing Relief."

SUPPLEMENTARY INFORMATION:

Title: 30 CFR Parts 202, 204, and 206, Federal Oil and Gas Valuation.

OMB Control Number: 1010-0136.

Bureau Form Number: Form MMS-4393.

Abstract: The Secretary of the U.S. Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). Under the Mineral Leasing Act (30 U.S.C. 1923), the Indian Mineral Development Act of 1982 (25 U.S.C. 2103), and the Outer Continental Shelf Lands Act (43 U.S.C. 1353), the Secretary is responsible for managing the production of minerals from Federal and Indian lands and the OCS, collecting royalties and other mineral revenues from lessees who produce minerals, and distributing the funds collected in accordance with applicable laws. The MMS performs the mineral revenue management functions for the Secretary. Applicable public laws pertaining to mineral leases on Federal and Indian lands are located at http://www.mrm.mms.gov/Laws_R_D/PublicLawsAMR.htm.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The lessee is required to report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals.

We use the information collected in this ICR to ensure that royalty is accurately valued and appropriately paid on oil and gas produced from

Federal onshore and offshore leases. Please refer to the chart for all reporting requirements and associated burden hours. All data submitted is subject to subsequent audit and adjustment.

Valuation Regulations

The valuation regulations at 30 CFR part 206, subparts C and D, require companies to collect and/or submit information used to value their Federal oil and gas, including transportation and processing allowance limit information. This is accomplished on Form MMS-2014, Report of Sales and Royalty Remittance (OMB Control Number 1010-0140, expires November 30, 2009). The information requested is the minimum necessary to carry out our mission and places the least possible burden on respondents. If the information is not collected, a loss of royalties may result for both Federal and state governments.

Transportation and Processing Regulatory Allowance Limits

The reasonable, actual costs of transportation and processing may be deducted from Federal royalties.

Regulatory Allowance Limit for Transportation

Under certain circumstances, lessees are authorized to deduct from royalty payments the reasonable, actual costs of transporting the royalty portion of produced oil and gas from the lease to a processing or sales point not in the immediate lease area. For oil and gas, regulations establish the allowable limit on transportation allowance deductions at 50 percent of the value of the oil or gas at the point of sale.

Regulatory Allowance Limit for Processing

When gas is processed for the recovery of gas plant products, lessees may claim a processing allowance. Regulations establish the allowable limit on processing allowance deductions at 66⅔ percent of the value of each gas plant product.

Request to Exceed Regulatory Allowance Limitation, Form MMS-4393

Lessees may request to exceed regulatory limitations. Upon proper application from the lessee, we may approve an oil or gas transportation allowance in excess of 50 percent or a gas processing allowance in excess of 66⅔ percent on Federal leases. To request permission to exceed a regulatory allowance limit, lessees must submit a letter to MMS explaining why a higher allowance limit is necessary and provide supporting documentation, including a completed Form MMS-4393. This form provides us with the data necessary to identify the properties and time periods for which the lessee is requesting to exceed the regulatory limits.

Accounting and Auditing Relief for Marginal Properties

We amended our regulations in 2004 to provide guidance to lessees and designees seeking accounting and auditing relief for Federal marginal properties. There are two types of relief: (1) cumulative royalty reports and payments relief; and (2) other relief. Under 30 CFR 204.202, MMS requires notification from lessees who request to take the cumulative royalty reporting and payment relief option. Under 30 CFR 204.203, MMS requires a relief request from lessees who want to obtain any other type of accounting and auditing relief.

A state may decide in advance if it will allow either or both relief options for each particular year. After consulting with the state concerned, we will approve, deny, or modify requests in writing. Under the regulations, both MMS and the state concerned must approve any accounting and auditing relief granted for a marginal property.

OMB Approval

We are requesting OMB approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge his/her duties and may also result in loss of royalty payments. Proprietary information submitted to MMS under this collection is protected, and no items of a sensitive nature are included in this information collection.

For information collections relating to valuation requirements, responses are mandatory. For the remaining information collections in this ICR, responses are voluntary; only those lessees who request approval to exceed the regulatory limits on transportation and processing allowances or to obtain the benefits of accounting and auditing relief for marginal properties must supply this information.

Frequency of Response: Annually and on occasion.

Estimated Number and Description of Respondents: 102 Federal lessees/designees and 4 states.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 21,055 hours.

We have not included in our estimates certain requirements performed in the normal course of business and considered usual and customary. The following chart shows the estimated burden hours by CFR section and paragraph:

Estimated Annual Reporting and Recordkeeping “Non-hour Cost”

Burden: We have identified no “non-hour cost” burden associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected

agencies concerning each proposed collection of information * * *.” Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the

information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. The ICR also will be posted at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments in response to this notice at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm. We also will make copies of the comments available for public view, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public view your personal identifying information, we cannot guarantee that we will be able to do so.

BILLING CODE 4310-MR-P

DEPARTMENT OF JUSTICE

Notice of Lodging Consent Decree Under the Clean Air Act

Pursuant to 28 CFR 50.7, notice is hereby given that, on August 12, 2008, a proposed Consent Decree in *United States v. Salt River Project Agricultural Improvement and Power District* ["SRP"], Civil Action No. 2:08-cv-1479-JAT (D. Ariz.), was lodged with the United States District Court for the District of Arizona. The Consent Decree addresses alleged violations of the Clean Air Act, 42 U.S.C. 7401-7671 et seq., and state and federal implementing regulations, which occurred at Units 1 and 2 of the Coronado Generating Station, a coal-fired power plant owned and operated by SRP in St. Johns, Arizona. The alleged violations arise from the construction of modifications to the power plant without obtaining appropriate permits under the Prevention of Significant Deterioration provisions of the Clean Air Act, 42 U.S.C. 7475, and Title V of the Act, 42 U.S.C. 7661 et seq., and without installing and applying best available control technology at the plant to control emissions of various air pollutants.

The proposed Consent Decree would resolve the claims alleged in the Complaint filed in this matter in exchange for SRP's commitment to perform injunctive relief including: (1) Installation of appropriate pollution control technology to control emissions of nitrogen oxides (NO_x), sulfur dioxide (SO₂), and particulate matter (PM)—including flue gas desulfurization devices to control SO₂ on Units 1 and 2 at the Coronado Station and installation of selective catalytic reduction to control NO_x on one of the two units; (2) meet specified emission rates or removal efficiencies for SO₂, NO_x, and PM; (3) comply with a plant-wide emissions cap for NO_x; and (4) perform \$4 million worth of projects to mitigate the alleged effects of its past violations. The proposed Consent Decree also requires SRP to pay a \$950,000 civil penalty.

The Department of Justice will receive comments relating to the proposed Consent Decree for period of thirty (30) days from the date of this publication. Comments should be addressed to the

Assistant Attorney General, Environment and Natural Resources Division, and mailed either electronically to pubcomments.enrd@usdoj.gov or in hard copy to the United States Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044-7611. Comments should refer to *United States v. Salt River Project Agricultural Improvement and Power District*, Civil Action No. 2:08-cv-1479-JAT (D. Ariz.) and D.J. Ref. No. 90-5-2-1-09174.

The Consent Decree may be examined at: (1) The offices of the United States Attorney, Two Renaissance Square, 40 N. Central Avenue, Suite 1200, Phoenix, AZ 85004-4408; and (2) the offices of the U.S. Environmental Protection Agency, Region 9, 75 Hawthorne St., San Francisco, CA 94105. During the public comment period, the Consent Decree may also be examined on the following Web site: http://www.usdoj.gov/enrd/Consent_Decrees.html. A copy of the Consent Decree may also be obtained by mail from the Department of Justice Consent Decree Library, P.O. Box 7611, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$18.00 (72 pages at 25 cents per page reproduction costs) payable to the U.S. Treasury.
