The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Southern Nuclear Operating Corporation (the licensee) to withdraw its application dated November 30, 2007, with supplemental letters dated February 13, 2008, for proposed amendment to Facility Operating Licenses No. NPF-68 and No. NPF-81 for the Vogtle Electric Generating Plant, Units No. 1 and 2, located in Burke County, Georgia.

The proposed amendment would have changed TS 5.5.9 to modify the inspection and plugging requirements for portions of Steam Generator (SG) tubes within the hot leg side of the tubesheet region of the SGs. The proposed changes to TS 5.6.10 would have added requirements to report specific data related to indications, leakage detected, and calculated accident leakage.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment, on the above proposed amendment application, that was published in the **Federal Register** on December 18, 2007 (72 FR 71715). However, by letter dated April 18, 2008, the licensee withdrew the proposed amendment.

RAILROAD RETIREMENT BOARD

Proposed Data Collection Available for Public Comment and Recommendations

SUMMARY: In accordance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including

whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and Purpose of Information Collection

Evidence of Marital Relationship, Living with Requirements; OMB 3220-0021.

To support an application for a spouse or widow(er)'s annuity under Sections 2(c) or 2(d) of the Railroad Retirement Act, an applicant must submit proof of a valid marriage to a railroad employee. In some cases, the existence of a marital relationship is not formalized by a civil or religious ceremony. In other cases, questions may arise about the legal termination of a prior marriage of an employee, spouse, or widow(er). In these instances, the RRB must secure additional information to resolve questionable marital relationships. The circumstances requiring an applicant to submit documentary evidence of marriage are prescribed in 20 CFR 219.30.

In the absence of documentary evidence to support the existence of a valid marriage between a spouse or widow(er) annuity applicant and a railroad employee, the RRB needs to obtain information to determine if a valid marriage existed. The RRB utilizes Forms G-124, Statement of Marital Relationship; G-124a, Statement Regarding Marriage; G-237, Statement Regarding Marital Status; G-238, Statement of Residence; and G-238a, Statement Regarding Divorce or Annulment to secure the needed information. One response is requested of each respondent. Completion is required to obtain benefits. The RRB proposes no changes to the forms in the collection.

Estimate of Annual Respondent Burden

The estimated annual respondent burden is as follows:

Form #(s)	Annual responses	Time (min)	Burden (hrs)
G-124 (In person)	125	15	31
G-124 (By mail)	75	20	25
G-124a	300	10	50
G-237 (In person)	75	15	19
G-237 (By mail)	75	20	25
G-238 (In person)	150	3	8
G-238 (By mail)	150	5	13
