#### FOR FURTHER INFORMATION CONTACT:

Mike Israni at (202) 366-4571 or by e-mail at [mike.israni@dot.gov](mailto:mike.israni@dot.gov).

**SUPPLEMENTARY INFORMATION:** PHMSA is extending, by 30 days, the comment period on the proposed rulemaking published on June 25, 2008 (73 FR 36015) in response to a petition from American Gas Association (AGA) and an informal request from National Association of Pipeline Safety Representatives (NAPSR). AGA requested this extension in order to allow for more time for interested persons to evaluate the proposed rulemaking and submit comments. AGA views the proposed rule as the most extensive rulemaking for gas utilities since the code was codified in the 1970s. AGA notes that there are more than 1,200 natural gas utilities—providing service to more than 70 million Americans—that will be affected by the proposed rulemaking. AGA further notes critical issues that need to be addressed that were not discussed in the Distribution Integrity Management Phase 1 Report which was used to develop the proposed rule. In addition, AGA estimates that the proposed rule's establishment of a plastic pipe database could result in the elimination of the Plastic Pipe Database Committee (PPDC) and the 16,000 data points that have been established over the last eight years. AGA notes that PPDC's scheduled semi-annual meeting on August 26-27, 2008, does not afford PPDC the proper time for their members to discuss the potential impact on their organization, review with their constituents, and submit relevant comments to the docket prior to the September 23, 2008 comment deadline. PHMSA is granting a 30-day comment period extension in an effort to allow for the potentially impacted entities to submit comments and ensure that AGA's concerns are addressed.
