

Region III RCEP grantees to allow them to continue operating until December 15, 2008.

The APA also provides that a substantive rule may not take effect within 30 days from publication unless the agency for good cause finds that a delayed effective date would not be in the public interest. For the reasons described in the preceding paragraph, we also are waiving the APA's requirement that this extension and waiver be published at least 30 days before the effective date.

Final Waivers—Rehabilitation Continuing Education Program

The Secretary waives the requirements in 34 CFR 75.250 and 75.261(a) and (c)(2), which prohibit project periods exceeding five years and extensions of project periods that involve the obligation of additional Federal funds, for the current RCEP grantees in Region II and in Region III in the fifth year of their grants.

Under these waivers, the RCEP grantees in Region II and in Region III, which have grants ending on September 30, 2008, are eligible for additional funding, as available, to allow them to continue activities through December 15, 2008.

Regulatory Flexibility Act Certification

The Secretary certifies that the announced waivers would not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act of 1995

This notice of waivers would not contain any information collection requirements.

Intergovernmental Review: This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

Federal Energy Regulatory Commission

Docket No. CP08-472-000]

Corning Natural Gas Company; Notice of Application

September 18, 2008.

Take notice that on September 9, 2008, Corning Natural Gas Company (Corning), 330 W. William Street, Corning, New York 14830, filed in Docket No. CP08-472-000, an application pursuant to section 7(f) of the Natural Gas Act (NGA) requesting the determination of a service area within which Corning may, without further Commission authorization, enlarge or expand its natural gas distribution facilities. Corning also requests a waiver of the Commission's accounting and reporting requirements and other regulatory requirements ordinarily applicable to natural gas companies under the NGA and the NGPA and such further relief the Commission may deem appropriate, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Corning proposes to connect its natural gas distribution system (which is entirely within the State of New York) to natural gas supplies in Tioga County, Pennsylvania, by constructing and operating approximately 75 feet of 10-inch diameter pipeline and a meter station. Corning states that it would not distribute, transport, or sell natural gas to any customers in the State of Pennsylvania as a result of the proposed service area determination and additional facilities.

Any questions regarding this application should be directed to Michael I. German, President and CEO, Corning Natural Gas Company, 330 W. Williams Street, Corning, New York 14830, or at (607) 936-3755 (telephone); (607) 962-2844 (facsimile); mgerman@corninggas.com.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date

stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Date: October 9, 2008.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2232-522]

Duke Energy Carolinas, LLC; Notice of Authorization for Continued Project Operation

September 18, 2008.

On August 29, 2006, Duke Energy Carolinas, LLC, licensee for the Catawba-Wateree Hydroelectric Project, filed an Application for a New license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. The Catawba-Wateree Hydroelectric Project is located on Catawba River, in Alexander, Burke, Caldwell, Catawba, Gaston, Iredell, Lincoln, McDowell, and Mecklenburg Counties, North Carolina and on the Catawba and Wateree Rivers in the counties of Chester, Fairfield, Kershaw, Lancaster, and York, South Carolina.

The license for Project No. 2232-522 was issued for a period ending August 31, 2008. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR. 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 2232-

522 is issued to the Duke Energy Carolinas, LLC., for a period effective September 1, 2008 through August 31, 2009, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before August 31, 2009, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise. If the project is not subject to section 15 of the FPA, notice is hereby given that the Duke Energy Carolinas, LLC., is authorized to continue operation of the Catawba-Wateree Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.

Kimberly D. Bose,

Secretary.
