SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the Department of Homeland Security (DHS)/United States Coast Guard (USCG) have relied on previous Privacy Act systems of records notices for the collection maintenance of records that concern the USCG Auxiliary Database (AUXDATA) system of records.

As part of its efforts to streamline and consolidate its record systems, DHS is updating and reissuing a DHS/USCG system of records under the Privacy Act (5 U.S.C. 552a) that deals with USCG Auxiliary program management. The collection and maintenance of this information will assist DHS/USCG in meeting its obligation to administer the USCG Auxiliary program.

In accordance with the Privacy Act of 1974 and as part of DHS's ongoing effort to review and update legacy system of records notices, DHS/USCG is giving notice that it proposes to update and reissue the following legacy record system DOT/CG 501 Auxiliary Management Information System (AUXMIS) (65 FR 19475 April 11, 2000) as a DHS/USCG system of records notice titled, Auxiliary Database (AUXDATA). The AUXDATA system is the USCG's information system that tracks and reports contact, activity, performance, and achievement information about the members of its volunteer workforce element, the USCG Auxiliary. Categories of individuals and categories of records have been reviewed, and the routine uses of this legacy system of records notice have been updated to better reflect DHS/USCG's AUXDATA record system. This new system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and legal permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR Part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the AUXDATA System of Records.

In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this new system of records to the Office of Management and Budget and to Congress.
