SUPPLEMENTARY INFORMATION:

Public Participation

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments on all aspects of the proposed rule. CBP also invites comments that relate to the economic, environmental, or federalism effects that might result from this proposed rule. Comments that will provide the most assistance to CBP will reference a specific portion of the proposed rule, explain the reason for any recommended change, and include data, information, or authority that support such recommended change. See **ADDRESSES** above for information on how to submit comments.

Background

CBP published a notice of proposed rulemaking in the **Federal Register** (73 FR 43385) on July 25, 2008, proposing to amend the CBP regulations to establish uniform rules of origin for imported merchandise. The proposed rule would extend application of the country of origin rules codified in 19 CFR part 102. Those rules have proven

to be more objective and transparent and provide greater predictability in determining the country of origin of imported merchandise than the system of case-by-case adjudication they would replace. The proposed change also will aid an importer's exercise of reasonable care. In addition, the document proposes to amend the country of origin rules applicable to pipe fitting and flanges, printed greeting cards, glass optical fiber, and rice preparations. Finally, the proposed rule would amend the textile regulations set forth in § 102.21 to make corrections so that the regulations reflect the language of section 334(b)(5) of the Uruguay Round Agreements Act.

The notice of proposed rulemaking invited the public to comment on the proposal. Comments on the proposed rule were requested on or before September 23, 2008. In response to the proposed rule published in the **Federal Register**, CBP received correspondence from several parties requesting an extension of the comment period. In a notice published in the **Federal Register** on September 8, 2008 (73 FR 51962), CBP provided an additional 30 days for interested parties to submit comments on the proposed rule until October 23, 2008.

Re-Opening of Comment Period

As a result of modifications to the Harmonized Tariff Schedule of the United States (HTSUS) in 2007, certain tariff provisions have been added or removed, and certain goods have been transferred, for tariff classification purposes, to different or newly-created provisions. CBP is publishing a document in today's **Federal Register** which sets forth technical corrections to §§ 102.20 and 102.21 of the CBP regulations (19 CFR 102.20 and 102.21) in order to align the regulations with the current version of the HTSUS. The technical corrections to the tariff shift rules set forth in that document will enable parties to properly evaluate the impact, if any, of the proposed rule on the country of origin of their goods. Accordingly, in order to afford parties the opportunity to enhance their review of the proposed rule and provide meaningful comment in light of the technical corrections to §§ 102.20 and 102.21, the decision has been made to re-open the comment period on the proposed rule. Comments are now due on or before December 1, 2008.

Dated: October 23, 2008.

Director, Regulations and Disclosure Law Division, Regulations and Rulings, Office of International Trade.

Timothy E. Skud,

Deputy Assistant Secretary (Tax, Trade and Tariff Policy), Office of Tax Policy, United States Treasury Department.

Approval and Promulgation of Air Quality Implementation Plans; West Virginia; Revised Motor Vehicle Emission Budgets for the Parkersburg 8-Hour Ozone Maintenance Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of West Virginia for the purpose of amending the 8-hour ozone maintenance plan for the Parkersburg area. This revision amends the maintenance plans' 2009 and 2018 motor vehicle emissions budgets (MVEBs) by reallocating a portion of the plans' safety margins which results in an increase in the MVEBs. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.
