II. Committee Background

The TPSSC and THLPSSC are statutorily mandated advisory committees that advise PHMSA on proposed safety standards, risks assessments, and safety policies for natural gas pipelines and for hazardous liquid pipelines. Both committees were established under the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 1) and the pipeline safety law (49 U.S.C. Chap. 601). Each committee consists of 15 members—with membership evenly divided among the Federal and State government, the regulated industry, and the public. The committees advise PHMSA on technical feasibility, practicability, and cost-effectiveness of each proposed pipeline safety standard.

III. Agenda

The agenda for the meetings will include discussions of comments received for two notices of proposed rulemakings, and to present to the Committees for a final rule vote on these two proposed rules. The two proposed rules for presentation are:

- Control Room Management/Human Factors—on December 11th, a proposal to revise the Federal pipeline safety regulations to address human factors and other components of control room management; and
- Integrity Management Program for Gas Distribution Pipelines—on December 12th, a proposal to amend the Federal pipeline safety regulations to require operators of gas distribution pipelines to develop and implement integrity management (IM) programs.

Authority: 49 U.S.C. 60102, 60115; 60118.

Issued in Washington, DC on October 27, 2008.
