DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL08-7-001]

The Borough of Chambersburg, PA; Notice of Filing

February 14, 2008.

Take notice that on February 11, 2008, the Borough of Chambersburg, Pennsylvania (Chambersburg) filed revisions to its November 7, 2007, Revenue Requirement Tariff for Reactive Power and Voltage Control from Generation Sources Service. Chambersburg also filed an addendum to this filing on February 12, 2008.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the

"eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Title: Federal Implementation Plans under the Clean Air Act for Indian Reservations in Idaho, Oregon, and Washington (Renewal).

ICR number: EPA ICR No. 2020.03, OMB Control No. 2060-0558.

ICR status: This ICR is scheduled to expire on February 29, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR,

after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA promulgated Federal Implementation Plans (FIPs) under the Clean Air Act for Indian reservations located in Idaho, Oregon, and Washington in 40 CFR part 49 (70 FR 18074, April 8, 2005). The FIPs in the final rule, also referred to as the Federal Air Rules for Indian Reservations in Idaho, Oregon, and Washington (FARR), include information collection requirements associated with the partial delegation of administrative authority to a Tribe rule in § 49.122; the visible emissions rule in § 49.124; the fugitive particulate matter rule in § 49.126; the woodwaste burners rule in § 49.127; the rule for limiting sulfur in fuels in § 49.130; the rule for open burning in § 49.131; the rules for general open burning permits, agricultural burning permits, and forestry and silvicultural burning permits in §§ 49.132, 49.133, and 49.134; the emissions detrimental to human health or welfare rule in § 49.135; the registration rule in § 49.138; and the rule for non-Title V operating permits in § 49.139. EPA uses this information to manage the activities and sources of air pollution on the Indian reservations in Idaho, Oregon, and Washington. EPA believes these information collection requirements are appropriate because they will enable EPA to develop and maintain accurate records of air pollution sources and their emissions, track emissions trends and changes, identify potential air quality problems, allow EPA to issue permits or approvals, and ensure appropriate records are available to verify compliance with these FIPs. The information collection requirements listed above are all mandatory. Regulated entities can assert claims of business confidentiality and EPA would treat these claims in accordance with the provisions of 40 CFR part 2, subpart B.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to be 4,289 hours, or an average of approximately 2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions;

develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected Entities: Entities potentially affected by this action include owners and operators of emission sources in all industry groups and tribal, federal, and local governments, located on the identified Indian reservations.

Estimated Number of Respondents: 1,722.

Frequency of Response: Annual and on occasion.

Estimated Total Annual Hour Burden: 4,289.

Estimated Total Annual Cost: \$245,815. This includes an estimated labor cost of \$245,815, and no capital investment or operation and maintenance costs.

Changes in the Estimates: There is an increase of 1,512 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to adjustments to the estimates. Several components of the burden estimates increased and several components decreased. In some cases, the burden estimates increased based on input from the source consultations. In other cases, the burden estimates decreased because EPA's original estimates included many "one-time" or initial costs (e.g., time spent gaining familiarity with the applicable rules, initial registration, etc.) that are not expected to be recurring. The original estimates did not include estimates for one provision, which accounts for some of the increase in estimated burden. For some provisions, the estimates of the number of respondents increased, while other estimates decreased based on additional information EPA has gained about the source universe through implementing the rules.

Dated: February 14, 2008.

Richard T. Westlund,

Acting Director, Collection Strategies Division.
