SUPPLEMENTARY INFORMATION:

I. Background

Job Corps is an intensive, residential training program for at-promise youth age 16 through 24 to address multiple barriers to employment faced by youth throughout the United States. Job Corps is authorized by Title I, Subtitle C, of the Workforce Investment Act (WIA) of 1998. The program is principally carried out through a nationwide network of 122 Job Corps centers. The centers are located at facilities either owned or leased by the Federal Government. The Department has a direct role in the operation of Job Corps, and does not serve as a pass-through agency for this program. It is the Department's responsibility to establish Job Corps centers and to select operators for them. Of the 122 current centers, 28 are operated by the Departments of

Agriculture and the Interior, through interagency agreements. These centers are located on Federal lands controlled by these two agencies. The remaining 94 centers are managed and operated by large and small corporations and nonprofit organizations selected by the Department in accordance with the Federal Acquisition Regulations, and in most cases through a competitive procurement process. Many of the current contractors manage and operate more than one center.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

This submission requests approval of three primary and two secondary data collection instruments that will be used to collect follow-up data about individuals who are no longer actively participating in Job Corps. These youths either graduated from Job Corps or stayed in the program at least 60 days but left before completing graduation requirements (former enrollees). These data collection activities will be conducted with the following groups of recent Job Corps participants:

- Former enrollees who were placed in a job or school program. This group will be contacted 90 days after separation.
- Graduates who were placed in a job or school program. This group will be contacted 90 days after initial placement.
- Graduates who were placed in a job or school program. This group will be contacted 6 months after initial placement.

• Graduates who were placed in a job or school program. This group will be contacted 12 months after initial placement.

The data collection instrument for graduates 90 to 120 days after their initial placement is called Interim Checkpoint for Eligibility (ICFE). Administration of the ICFE at this time will facilitate the key data collection at 6 and 12 months. This submission also requests approval for two brief questionnaires (one for employers and one for schools or training institutions) that will be used to collect reverification data about initial placement for the subset of placed graduates and former enrollees that cannot be contacted directly.

To maximize the comparability of the data collected from the different subgroups of students, the ICFE, the 90-day follow-up for former enrollees, and the 6-month and 12-month follow-up sections of the data collection instruments use modules with identical sets of questions on the same topics. The questions are designed to obtain:

- Data to reverify the initial job or school placements of placed graduates and former enrollees (only in the instruments administered at 90 days and the ICFE).
- Information about employment experiences in the previous week.
- Information about educational experiences in the previous week.
- Summary information about the work, school, and job search activities of those who were neither working nor in school the previous week.
- Information about satisfaction with the services provided by Job Corps.

Type of Review: Extension without Change.

Agency: Office of the Secretary, U.S. Department of Labor.

Title: Job Corps Placement Verification and Follow-up of Job Corps Participants.

OMB Number: 1205–0426. Agency Numbers: N/A.

Recordkeeping: The respondent is not required to retain records; Career Transition Service providers and center staff are required to retain records of graduates and former enrollees, who are placed in a job, further education or military service, for three years.

Affected Public: Individual or households and Business/Education for profit institutions.

This data collection is envisioned as an annual process that will support the administration of approximately 73,373 Job Corps telephone interviews that, on average, are 10 to 15 minutes in duration. The combined reporting burden for respondents associated with this data collection effort is anticipated

to be about 15,593 hours. (See Table 1 below.)

TABLE 1—ESTIMATES OF RESPONDENT BURDEN

Respondent category	Number of respondents	Average time (hours) per respondent	Estimated hours
Placed Former Enrollees at 90 days	1,824	0.25	456
Placed Graduates at 90–120 days	21,330	0.25	5,333
Placed Graduates at Six Months	22,420	0.20	4,484

Employer/Institution Re-Verification	8,005	0.17	1,361
Total	73,373		15,593

Total Respondents: 73,373. Estimated Total Burden Hours: 15.593.

Total Burden Cost (capital/startup): N/A

Total Burden Cost (operating/ maintaining): The estimated cost of funding this data collection effort in 2008 was \$2,712,035. This estimate includes the ongoing maintenance of the infrastructure needed to administer the CATI system, ongoing data communication to and from the Job Corps Data Center, data collection using telephone interviews from trained staff who are non-Job Corps employees, data processing including coding of occupational and industry information, and preparation of summary data tabulations. Supervision of this total system is also included here.

There are no costs to the respondents for participating in this survey. All telephone or postage costs for contacting the respondents are borne by the Federal government through the data collection contractors.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Employment Standards Administration

Proposed Extension of the Approval of Information Collection Requirements

ACTION: Notice.

SUMMARY: The Department of Labor (DOL), as part of its continuing effort to reduce paperwork and respondent

burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the **Employment Standards Administration** is soliciting comments concerning its proposal to extend OMB approval of the information collection: Health Insurance Claim Form (OWCP-1500). A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before May 11, 2009.

ADDRESSES: Mr. Steven D. Lawrence, U.S. Department of Labor, 200 Constitution Ave., NW., Room S–3201, Washington, DC 20210, telephone (202) 693–0292, fax (202) 693–1451, e-mail Lawrence. Steven@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) is the agency responsible for administration of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 et seq., the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 et seq., and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 et seq. All three of these statutes require that OWCP pay for

medical treatment of beneficiaries; BLBA also requires that OWCP pay for medical examinations and related diagnostic services to determine eligibility for benefits under that statute. Form OWCP-1500 is used by OWCP and contractor bill payment staff to process bills for medical services provided by medical professionals other than medical services provided by hospitals, pharmacies and certain other medical providers. To consider the appropriateness of the requested payment in a timely fashion, it is essential that provider bills be submitted on a standard form that will capture the critical data elements needed to evaluate the bill, such as procedure and diagnosis codes.

This information collection is currently approved for use through October 31, 2009.

II. Review Focus

The DOL is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected: and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
