

support the Postal Service's methodologies.⁴ As the Commission explained in Order No. 191, also issued today, the expedited pre-implementation review of proposed market dominant rate adjustments under section 3622 precludes any meaningful examination of departures from established rate methodologies and analytical principles.

In Docket Nos. R2008–1 and ACR2007, various parties suggested changes to the existing workshare discount methodologies and methods for measuring cost avoidance, which, given the expedited nature of those proceedings, the Commission declined to hear. See Docket No. ACR2007, Annual Compliance Determination FY2007, March 27, 2008, at 18; Docket No. R2008–1, Review of Postal Service Notice of Market Dominant Price Adjustment, March 17, 2008, at 19.

Consequently, pursuant to 39 U.S.C. 503, 3622(a), and 3652(e), the Commission is initiating this proceeding to afford the Postal Service (and interested persons supporting its rationales) an opportunity to address the legal, factual, and economic underpinnings of the methodologies used by the Postal Service to develop its proposed First-Class Mail and Standard Mail discount rates in Docket No. R2009–2. In addition, interested persons, including the Postal Service, may submit alternative workshare discount rate design and cost avoidance calculation methodologies. Alternative methodologies must address the legal, factual, and economic bases underlying them.⁵ The foregoing presentations are due no later than 60 days after publication of this order in the **Federal Register**.

After an opportunity to review those presentations, the Commission will issue a procedural schedule to provide interested persons an opportunity to submit responsive presentations. Depending on the breadth and complexity of issues presented, the Commission may provide an opportunity for hearings and may find

it appropriate to bifurcate the proceeding.

Based on the record developed in this proceeding, the Commission will evaluate whether any change in the established workshare discount methodologies, including methods to calculate avoided costs, is warranted. While the established methodologies will continue to be employed until (and if) changed, the Commission emphasizes that the intent of this proceeding is to provide a forum for a thorough examination of these important issues.

Pursuant to 39 U.S.C. 505, the Commission designates Emmett Rand Costich and James Callow to serve as Public Representative to represent the interests of the general public in this proceeding.

It is Ordered:

1. As discussed in the body of this order, initial presentations may be filed by any interested person no later than 60 days after publication of this order in the **Federal Register**.

2. Following receipt of the initial presentations, the Commission will issue a further procedural schedule in this proceeding.

3. Pursuant to 39 U.S.C. 505, Emmitt Rand Costich and James Callow are designated as the Public Representative in this proceeding to represent the interests of the general public.

4. The Secretary shall arrange for publication of this order in the **Federal Register**.

By the Commission.

Steven W. Williams,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA–HQ–SFUND–1986–0005; FRL–8784–6]

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of Intent for Partial Deletion of the Mouat Industries Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency (EPA) Region 8 is issuing a Notice of Intent for Partial Deletion of the surface and subsurface soils component of the Mouat Industries

Superfund Site (Site) located in Columbus, Montana, from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at Appendix B of 40 CFR part 300, which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Montana, through the Montana Department of Environmental Quality (MDEQ), have determined that all appropriate response actions at these identified parcels under CERCLA, other than five-year reviews and operation and maintenance, have been completed. However, this deletion does not preclude future actions under Superfund. This partial deletion pertains to the surface and subsurface soils component of the Mouat Industries Superfund Site. The groundwater component will remain on the NPL and is not being considered for deletion as part of this action.

SUPPLEMENTARY INFORMATION: In the "Rules and Regulations" Section of today's **Federal Register**, we are publishing a direct final Notice of Partial Deletion for the surface and subsurface soils component of the Mout Industries Superfund Site without prior Notice of Intent for Partial Deletion because EPA views this as a noncontroversial revision and anticipates no adverse comment. We

have explained our reasons for this partial deletion in the preamble to the direct final Notice of Partial Deletion, and those reasons are incorporated herein. If we receive no adverse comment(s) on this partial deletion action, we will not take further action on this Notice of Intent for Partial Deletion. If we receive adverse comment(s), we will withdraw the direct final Notice of Partial Deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final Notice of Partial Deletion based on this Notice of Intent for Partial Deletion. We will not institute a second comment period on this Notice of Intent for Partial Deletion. Any parties interested in commenting must do so at this time.

For additional information, see the direct final Notice of Partial Deletion which is located in the Rules section of this **Federal Register**.

Endangered and Threatened Wildlife and Plants; Determination of Significant Portion of the Range of Marine and Estuarine Areas of the Southwestern Washington/Columbia River Distinct Population Segment of Coastal Cutthroat Trout (*Oncorhynchus clarki clarki*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: On July 5, 2002, we, the U.S. Fish and Wildlife Service (Service), published a withdrawal of the proposed rule to list the Southwestern Washington/Columbia River distinct population segment (DPS) of the coastal cutthroat trout (*Oncorhynchus clarki clarki*) as threatened under the Endangered Species Act of 1973, as amended (Act). As a result of litigation, we are now reconsidering our withdrawal of the proposed rule with specific regard to the question of whether the marine and estuarine areas may constitute a significant portion of the range of the Southwestern Washington/Columbia River DPS of coastal cutthroat trout, and if so, whether that portion is threatened or endangered. We hereby notify the public, other concerned governmental agencies, the scientific community, industry, and any other interested party of our request for information, data, or comments on the marine and estuarine areas of the Southwestern Washington/Columbia River DPS of coastal cutthroat trout, with particular regard to whether these areas constitute a significant portion of the range of the DPS under the Act, and if so, whether the subspecies is threatened or endangered in those areas.

DATES: We will accept information received on or before April 23, 2009.
