Animal and Plant Health Inspection Service

Title: Viral Hemorrhagic Septicemia (VHS); Interstate Movement and Import Restrictions on Certain Live Fish.

OMB Control Number: 0579-0340.

Summary of Collection: The Animal Health Protection Act of 2002 is the primary Federal law governing the protection of animal health. The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture is charged with disease prevention. APHIS regulations in 9 CFR, part 93 govern the importation of certain species of fish to prevent the introduction or spread of specific pests and diseases of aquaculture facilities within the United States. APHIS is establishing regulations to prevent the introduction of VHS into U.S. aquaculture facilities by controlling the movement of certain live fish species at risk of harboring VHS. VHS is listed as a notifiable disease by the World Organization for Animal Health. APHIS will use several forms to collect necessary information.

Need and Use of the Information: APHIS will collect the necessary information using the Interstate Certificate of Inspection (ICI); Permit for Movement of Restricted Animals VS Form 1-27; Cleaning and Disinfection Certificate; Application for Import or In-Transit Permit VS Form 17-129; Health Certificate and a 72-hour advance notification by the importer notifying the APHIS port veterinarian. If the information was collected less frequently or not collected at all, it would significantly cripple APHIS' ability to prevent the introduction of VHS into U.S. aquaculture facilities by controlling the movement of live fish at risk of harboring VHS virus.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 10.

Ball Bearings and Parts Thereof from France: Initiation of Antidumping Duty Changed-Circumstances Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: In response to a request from SKF Aeroengine France S.A.S.U., the Department of Commerce is initiating a changed-circumstances review of the antidumping duty order on ball bearings and parts thereof from France.

EFFECTIVE DATE: March 30, 2009.

FOR FURTHER INFORMATION CONTACT:

Kristin Case or Richard Rimlinger, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; (202) 482-3174 or (202) 482-4477, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce (the Department) published an antidumping duty order on ball bearings and parts thereof from France on May 15, 1989. See *Antidumping Duty Orders: Ball Bearings, Cylindrical Roller Bearings, Spherical Plain Bearings, and Parts Thereof From France*, 54 FR 20902 (May 15, 1989). On August 11, 2000, the Department revoked the order, effective

May 1, 1999, with respect to sales of ball bearings by SNFA S.A. (SNFA). See *Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof From France, Germany, Italy, Japan, Romania, Singapore, Sweden, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews and Revocation of Orders in Part*, 65 FR 49219 (August 11, 2000).

On March 2, 2007, pursuant to a request from SNFA, SKF France S.A., and SKF Aerospace France S.A.S., we initiated a changed-circumstances review in order to determine whether SNFA was a successor-in-interest to SKF France S.A. following SNFA's acquisition by that company or, alternatively, that post-acquisition SNFA was the successor-in-interest to the pre-acquisition SNFA. See *Ball Bearings and Parts Thereof from France: Initiation of an Antidumping Duty Changed-Circumstances Review*, 72 FR 9513 (March 2, 2007). During the course of the changed-circumstances review, the companies informed the Department that SNFA would be changing its name to SKF Aeroengine France S.A.S.U. (SKF Aeroengine).

On June 29, 2007, we initiated an administrative review of the antidumping duty order on ball bearings and parts thereof from France for the period May 1, 2006, through April 30, 2007, with respect to SKF France S.A. and SKF Aerospace France S.A.S. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocation in Part and Deferral of Administrative Review*, 72 FR 35690 (June 29, 2007). On October 26, 2007, we rescinded the changed-circumstances review and explained that, because we had initiated an administrative review with respect to SKF France S.A. and SKF Aerospace France S.A.S., we would address any issues that had arisen during the course of the changed-circumstances review in the context of the administrative review. See *Ball Bearings and Parts Thereof from France and Italy: Rescission of Antidumping Duty Changed-Circumstances Reviews*, 72 FR 60798 (October 26, 2007). In the final results of the 2006/07 administrative review, we determined that post-acquisition SNFA was the successor-in-interest to pre-acquisition SNFA and that, during the period of review, SNFA had not changed its name to SKF Aeroengine. See *Ball Bearings and Parts Thereof From France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews and Rescission of Reviews in Part*, 73 FR 52823 (September 11, 2008), and accompanying Issues and Decision

Memorandum at comment 12 (AFBs Final Results).

On February 6, 2009, SKF Aeroengine requested that, because the Department appeared to have left open the effect of the name change on its determination in *AFBs Final Results*, the Department either confirm that its determination encompassed the name change or, in the alternative, the Department initiate a changed-circumstances review to determine whether SKF Aeroengine is the successor-in-interest to SNFA.

No other party submitted comments.

SKF Aeroengine claims that it has satisfied the criteria to warrant such a review. We agree that the information submitted by SKF Aeroengine demonstrates changed circumstances sufficient to warrant a
